

LAPIDOLITH

TRADE MARK

Stops Dusting and Wear of Concrete Floors

Ask your workmen about your floors. Find out how fast the floors are disintegrating and how much damage is being done by concrete dust.

Lapidolith, the liquid chemical, will make old or new concrete floors hard as granite and resistant to acids.

Lapidolith seeps into the concrete floors and immediately unites with the Portland Cement, creating a new crystalline material which fills the pores and holds the sand firmly in its bed. The microscope and camera have shown the "reason why" Lapidolith hardens concrete.

If you have concrete floors, then use Lapidolith. Prove its practical value. Send for free samples, full information and testimonials to any of our Canadian distributors or direct.

L. SONNEBORN SONS, Inc. (Dept. 33) 264 Pearl St., New York City

CANADIAN DISTRIBUTORS:

BEVERIDGE PAPER CO., LTD. Mill Supply Department, Montreal, Quebec, and St. John, N.B.	N. J. DINNEN CO., LTD. Winnipeg, Man.	WESTERN SUPPLY & EQUIPMENT CO., LTD., Calgary, Alta.
