

130474

Ottawa, January 30, 1934.

Dear Mr. Norton:

I duly received your letter of 26th January. Previous to this I had a letter on the same subject from Mr. LeSueur. There has been no decision at all that the proposed Provincial Hydro Building should be reinforced concrete or a steel building. I understand tenders will be received in accordance with both plans of construction.

I have taken up with the Chief Engineer particularly the matter of admissibility of Masselon floor joist construction, and he has promised careful consideration of your proposals in that regard.

Very sincerely yours,

Mr. R. M. Norton,
Sarnia Bridge Co. Ltd.,
Sarnia, Ont.
