I did not see when Sam Hartman was when I was alone with the accused. I saw him just before in the kitchen. He did not object to the accused taking care of the bedroom as there was a seizure with him. I was dressed completely with the exception of my stockings.

The accused did not mean, but I believe he opened his trunk and trousers. I have talked about this case with my parents and Sam Hartman. I did not see when I was on the bed but did not plead with the accused. I did not struggle.

~~Thereafter~~ I estimate that the accused remained on top of me rather long. It may have been 10 minutes. I cannot state how long I was in the room with him before the dark soldier came in.

I don't know how long the accused remained away with Sam Oides. I do know it was 0130 hrs when the accused left the house.

I don't know why the accused left the bed on the table. The can police took it away. Sam Hartman opened it.
