Hagyard's Pectoral Balsam

For all diseases that lead to Consumption, such as neglected Colds, Cough, Bronchitis, Asthma, Pain in the Chest, &c. The most pleasant and perfect Cough Cure and Throat and Lung Healer known. Its properties are Healing, Demulcent, Soothing, Febrifuge, Stimulating and Expectorant. Composed of balsams, gums and vegetable curatives, such as Balsam Tolu, Licorice, Wild Cherry, Horehound, &c. It excites expectoration and causes the lungs to throw off the accumulation of phlegm and mucous, while it subdues inflammation and soothes and heals the irritated parts. It is perfectly harmless to the most delicate child, and powerful to combat disease in the adult or aged. Do not use opiates that smother a cough and clog the secretions, they are more productive of harm than good. A cough should always be loosened if we would aid nature to throw off the irritation from the air passages.

Hagyard's Pectoral Balsam cures Hoarseness, Whooping Cough, Pleurisy, and all Bronchial and Pulmonary Complaints. Even in confirmed Consumption or in the obstinate coughs of old people it gives great relief by its soothing tonic action upon the mucous surfaces. We are not so presumptuous as to declare this medicine a cure for Consumption when I has obtained a constitutional hold upon its victim, and our readers may mark any one nostrum thus advertised as a catch penny fraud, but we do declare, and have established the fact, that by proper care and the use of our remedies in season this dreaded disease may be, and is often perfectly, prevented. Therefore we say, be warned in time against what may seem a trifling cold. Remember that

"Illa, small at first, grow larger by delay,
And slowly eat their sad and cankering way."

All are familiar with the old saying, "a stitch in time saves nine." This is equally true in regard to mending the health.

"A stitch in time they say saves nine,
It does, and sometimes more;

Off we have found with grief profound
It might have saved a score.

A dose in time likewise saves nine,
As you will always find;

And if you care your life to spare
Just bear this truth in mind,"

and ward off the disastrous effects of a cough in its earliest stages by a prompt use of Hagyard's Pectoral Balsam. Supplied by all medicine dealers. Prices 25 cents per bottle.

GENTLEMEN,—I beg leave to say to you and any persons who may be troubled with weak lungs or coughs, that I had a very severe attack of inflammation on the right lung, which left it in a very weak state for about a year, when I was completely cured by the use of Hagyard's Pectoral Balsam. I used about half a dozen bottles, and never have been troubled since that time, which is about six years ago. R. N. WHEELER, Merchant.

Messrs. T. Milburn & Co.

GENTLEMEN,—I have much pleasure in recommending your Pectoral Balsam. I had it in my store for three years, and never was asked for it. My wife tried one bottle for a bad cold, which completely cured her before it was all used. I then recommended it to my customers to their entire satisfaction, and am completely sold out. Please send me three dozen at once and oblige
