Articles are exact size of illustrations.

All 14 or 15-carat, fine.

FINE GOLD LINKS AND STUDS.

Many jewellers class 10-carat jewellery as "solid gold." We make the minimum quality 14-carat in the manufacture of our jewellery; we are then certain that our pieces will give wear and satisfaction. Every piece bearing the name "BIRKS" is of 14-carat or finer. Our diamond settings are always made in 18-carat. A handsome case is furnished with all gold jewellery.
