

Hamilton Business College

Corner of King and James Street's, HAMILTON, ONT.

"It affords me great pleasure to testify to the efficiency of the Hamilton Business College, having completed the course of study there. I can state that the instruction is practical in every respect. I found the teachers both able and anxious to assist the students, and zealous to deal in their power to make the time of their pupils both profitable and pleasant." D. WISHART.

TWO-FURROW GANG PLOW

Two horses can draw this Gang all day without change or rest. Will plow six (6) inches deep, and do the work as well as single plows. Beams will not bend in heaviest land. Mould boards very large. The only Gang made in Canada with tempered soft centre steel mould boards. Adjustments for depth, &c., made in a moment, and may be very slight as well as great, as the operator may wish. Put together by mechanics, finely finished throughout and handsomely painted.

When required, we furnish a Three-furrow Gang similar to the Two-furrow.

COGENT REASONS WHY

— THE —

CHATHAM

WAGON

Adopted by the Government of the Dominion of Canada as the STANDARD WAGON, should command your preference:

The intrinsic cost and value of it is at least \$10 more than any other wagon made in Canada, and any unprejudiced practical man will tell you so, and the thousands who now have them in use say so, because it is not only made from the best, carefully selected and thoroughly seasoned timber and best of iron, but the Skains used, made only by us, are superior to any skains made or used in Canada, and are constructed specially to receive our Climax Truss Rod, which doubles the strength of the axle; the boxing of the hubs are pressed, not wedged in, a guarantee for a year accompanies each wagon, and notwithstanding this additional cost and superiority, the Chatham Wagon can be purchased at no greater price than is charged for inferior wagons. Bear in mind it is the running gear that carries the load, and no amount of fancy painting on the box will make an easy running and great carrier of a poorly constructed wagon.

THE WHITFIELD STUMP EXTRACTOR

The superiority of this machine consists in the rapidity and ease in which it can take out the largest stumps; its great strength and durability; its easy operation by man or beast.

It leaves no holes to fill up, or any stumps or snags in the ground.

Send for circular of testimonials and particulars about it before purchasing an inferior machine.

All purchasers ordering direct from me will save agent's commission. Address
