"Bake 10 minutes in a very hot oven"

THE clock will count those minutes for you to the exact second, but how about that "very hot" oven?

Every woman has known the nerve rack of that guess; whether the oven is "just right" or not; whether the cake will "fall" or burn, or whether it will come out done to a turn.

With the glass door and the tell-true oven thermometer of the Pandora Range there is no guess—only the sure knowledge of seeing exactly what is going on in the oven.

You not only can see the cake as it bakes, but you can also see by a glance at the thermometer when the baking temperature of the oven is exactly right.

And by the Pandora flue and control systems you can instantly regulate that condition—raise or lower the temperature.

The woman who is plodding along with a worn-out range or an antiquated stove cannot appreciate the joy there is in store for her the day a Pandora Range is set up in her kitchen with its "daylight" oven and thermometer that never forgets to tell the exact heat of the oven.

"The Magic of the Pandora"—Booklet Free

This is only one of the many features of the Pandora Range described in "The Magic of the Pandora," a little booklet full of information that every woman will want before she buys a range. Write for it to the nearest McClary Branch.
