GREATEST Cream Separator Offer Ever Made!

**The Amsterdam Cream Separator
Guaranteed for Fifteen Years**

Absolutely the first bona fide, no-money-down offer ever made on any cream separator. No manufacturer of any separator ever dared to make such a startling offer before. All others who have ever pretended to offer you a free trial or to send you their separator without any money down, have taken care to get something out of you first. But we don't want anything down. All we ask is your simple request. We send the cream separator direct to your farm absolutely without any money down. We can afford to do this because the Amsterdam sells itself. It has the most wonderful one-piece skimming device ever designed. Think of it! Only one piece to do all of the skimming—only one piece to clean—the most wonderful invention in modern cream separator building. We want you to read every word of this great offer. It is an offer which proves our absolute faith in the great Amsterdam Cream Separator. You are given the opportunity of seeing just how much cream this marvelous separator will extract from your milk before we ask you to send us one cent. You never before saw another manufacturer who was so open handed in his offer to you.

Not a Penny Down—30 Days Free Trial

Some people pretend to give you a free trial, but they ask you to give them your money first. We are not afraid to let our separator speak for itself. We send it to you for you to use it for thirty days absolutely without charge. Test the Amsterdam Cream Separator in every way, watch your profits go up, watch the increase of the amount of cream—then if you do not believe that you ought to have a cream separator, just send it back at our expense. If, however, you decide to keep this genuine Amsterdam—the separator that makes every cow you have give you 100 per cent greater profit than ever before—we will allow you to keep this separator on such extremely easy monthly payments that you will hardly notice them. You can have the separator right in your dairy house while you are paying for it from your increased profits. In reality you are not paying for it at all. The separator pays for itself.

The Wonderful

Unispoon Skimming Device

The greatest discovery ever made in the history of separator construction. The one skimming device that is absolutely perfect. No more drudgery of old fashioned discs, wings, floats, beaters and all the other insanitary and labor-making appliances that lie hidden in the ordinary type cream separator.

The wonderful Unispoon Skimming Device is complete in one piece. Made of the finest German nickel steel. Not a single way in which it can possibly wear out or get out of order. Is washed thoroughly in 20 seconds.

Positive Proof of Superiority

We give you here positive proof of the superiority of the Amsterdam Cream Separator over two other separators of acknowledged high grade. We show you here three test tubes, all of the same size. Three equal portions of milk were taken from the same cows. One portion was run through the Amsterdam and the other two portions were run through the others. Figure No. 1 illustrates the amount of cream extracted by the Amsterdam. You can see for yourself that it is at least 25 per cent more than that extracted by the separator whose product in cream is shown in figure No. 2. This separator cost \$5.00 more than the Amsterdam and yet you can see that only three-fourths as much cream was taken from the same amount of milk. This test was made over and over again until there was absolutely no doubt in the minds of the judges of the superiority of the Amsterdam. In figure No. 3 we show the amount of cream extracted by a separator well known to the trade and looked upon as a "good" machine. This separator cost 20 per cent less than the Amsterdam, but it extracted 50 per cent less cream. No proof could be more positive—more sure than this. The Amsterdam is the king of all separators, and we are willing to prove this by sending you the Amsterdam without allowing you to pay any money for it. We want to give you the proof in reality—before your very eyes—that we show here on this page.

LUMBER CUT IN BRITISH COLUMBIA, 1910.

The rapid exploitation of lumber in British Columbia is increasing yearly, and almost made this Province the equal of Ontario in point of lumber production during 1910. Statistics of the Dominion Lumber cut for 1910, collected by the Forestry Branch of the Department of the Interior, state that one billion six hundred and twenty million feet of lumber, worth nearly twenty-five million dollars, was cut in British Columbia in 1910. As a result of greatly increased cutting in the fir and cedar forests, the total amount cut was more than doubled in one year. In 1909, the British Columbia cut constituted one-fifth of the total; in 1910 the proportion formed by the Western Province was one-third, and it lacked only forty-five million feet of surpassing the cut in Ontario. Seven important softwoods make up over 99 per cent. of the cut in British Columbia—Douglas fir, cedar, Western yellow pine, tamarack, spruce hemlock, and jack-pine. Nearly 45 per cent. of the total was made up by Douglas fir. This species was cut in 1910 to the extent of nearly seven hundred and twenty million feet, and had the largest actual increase shown by any species—an increase of nearly two hundred and fifty million feet. Cedar composed one-fifth of the total, and was the second wood in magnitude of cut. The three hundred and fifteen million feet of this species cut was an increase of two hundred and seventeen million feet over the 1909 production. The cut of yellow pine, amounting to one hundred and eighty-three million feet, was nearly six times as much as the amount cut in 1909, and was sufficient to raise it from fourteenth to sixth place in importance among the lumber-producing trees of Canada.
