#### A Star Life Assurance Company." OF LONDON.

INE AGENCY of this Company has been es-L tablished in this Province about three years. and has made some progress, and up to the present time, without a claim being made upon it. The Directors have recently instructed the Agent to show persons insuring for the whole term of Life. to pay one half the premium for the first five years, and give a note bearing Interest, for the remaining ball, upon the same condition as the National Loan Fund Association. As the proportion of profits divided among the Policy holders, with participations, is greater in this than any other Company-being 90 per cent -it therefore recommends itself to the fevourable consideration of all persons intending to insure, the rates being as low so in any other Company. If persons would give the subject of Life Assurance their serious consideration, they would be convinced that it is the very best investment to be found for a moderate annual sum of money, for the benefit of their famties after they are taken from them. The attention of heads of families in this Province generally, and those of Wesleyans in particular, is earnesity invited to this subject, and white the torceing of Health is enjoyed, to call upon the Agent of the Association for admission into the Society; who will furnish all necessary blanks and give every information requisite at his office in Jerusalem Warehouse, Hollis Street. DANIEL STARR.
