HARBOUR GRACE,
30th April, 1839.

SIR,

I have the honor to inform you, that in compliance with the Instructions received from the Board of Education, in your letter to me of the 19th March last, to proceed to the several Settlements in the District, and to request the Inhabitants to place at the disposal of the Board of Education ground for the purpose of building School-Houses, and draw up a Memorandum of a conveyance from the proprietors of the ground, and also to ascertain how many will contribute towards the support of School Masters,—I have visited several places in the District, and I beg leave to make the following Report :—

HORSE COVE, TOPSAIL, CHAMBERLAINS, AND EMANUELS.

A School is required for these places, and should be situated at Chamberlains: there are 67 Children from 4 to 12 years, about 30 of whom may be relied on to be paid for—there is no Day-School there.

LONG-POND, FOX TRAP, MIDDLE BIGHT, KELLY-GREWS, UPPER-GULLEY AND LOWER GULLEY.

The Inhabitants of these places are scattered along the Shore for about the distance of 4½ miles—Middle Bight being the most central situation, I selected a spot of public land, situated on Middle Bight Point.—There are in the above places 96 Children from 4 to 12 years, of whom 30 will be paid for.—There has not been a School in either of the above places for the last two years—prior to that Richard Parmitor kept a School in Middle Bight.

HOLYROOD.

Southern Arm being the most central and populous situation, I selected a spot of ground which was given by Dennis O'Neill (see Bill of Sale.)—There are 126 Children from 4 to 12 years of age, 27 of whom will be paid for—there is a School kept by Denis O'Neill.

CHAPEL'S COVE, FROM HEALLY'S, ON THE NORTH SIDE OF HOLYROOD, TO LUNNON'S, ON THE SOUTH SIDE OF HARBOUR MAIN.

There is a School kept in Chapel's Cove by Timothy Gorman—there are in the above 64 Children between 4 and 12 years, of whom 20 will be paid for.

HARBOUR MAIN, GASTERS AND SALMON COVE.

The spot of land which I selected at Harbour Main for the erection of the School House on, is claimed by a person who is at the Ice—it is called Bill Moore's Hill, which I have no doubt I would get if the proprietor was at home. As I could not then get a title to the spot, I selected another called Admiral's Beach,—bound on the North by Patrick Strapp's flake, on the South by Walter Power's dwelling-house, on the S. W. by the road, and on the N. E. by the sea. Prior to my leaving the inhabitants assured me that the spot of land which I
