# Help to Save Canada's Fruit Crop A Practical Thrilt Suggestion

This year, as never before, every quart of Canada's fruit crop should be used to the very best advantage. Though it all ripens within four months, it can be made to supply every table, every day in the year, at moderate cost.

Canning and preserving, done at home at the time when each fruit is cheapest, provide in delicious

and economical form the daily fruit so necessary in a wholesome diet. Fruit put up at home is much cheaper than that which you buy, and the slight increase in its cost, due to the higher price of sugar, is small compared with the mounting cost of other foods.

Successful preserving and canning are by no means difficult, either, if you are careful to boil every-

In Canadian homes, for the last Sixty Years, REDPATH Sugar has been the standby for preserving. It is always absolutely pure, and can be depended upon to do everything that sugar can do to ensure success.

Mr. and Mrs. Wm. O'Sullivan spent a few days the latter part of
