#### THE PUBLIC MUSEUM.

The proposal to establish a public museum is another advancement in the right direction. It furnishes proof of the fact, as often advanced in these columns, that the permanent era for Dawson and the Yukon territory is at power.

It does not require any evidence at all to convince ourselves that such is that party's being in power, will be the case. Every person who has spent a few months in Dawson and has taken any pains to post himself upon the extent of the natural resources which are the foundation upon which the prosperity of Dawson must always be founded, will agree with the Nugget that the future holds out greater things by far than the past has offered at any

It is not only necessary, however, that we should be convinced ourselves with reference to these facts but it is highly proper that by all legitimate be kept in mind, and they are to be means, we should bring to the attention of the outside the facts as every one in Dawson knows them to be. The establishment of a museum will serve not only to further this purpose, but will prove also a valuable educational

A museum such as is pro-posed will serve to furnish people who posed will serve to furnish people who have but little time to remain in the country with accurate and reliable information concerning the territory and doubtless will serve to arrest the attention of many to the extent that they will become pormanently interested.

By all means the public museum is an institution which may well be fostered in every possible way.

#### A GREAT FIRE.

The Nugget published on Saturday last the fact that reasons existed for belief that a fourth party was concerned in the circumstances leading up to the Slorah-Mitchell tragedy. That was all. Nothing was said to indicate in the faintest possible way who, the fourth party might be.

But behold! the News-the personal organ of Mr. Arthur Wilson-began immediately to tear its hair, throw up its arms, froth at the mouth, roll its eyes, and give expression to numerous other evidences of insanity, punctuating the whole with howls such as "Wilson didn't do it!" "Wilson wasn't there!" "Wilson wasn't - Slorah!! Wilson didn't-Mitchell!!!" until the whole thing was lost in one inarticulate jumble. Twelve tons of whisky shipped to Dawson from Vancouver has been found on arrival to consist of a very small proportion of alcoholic odor and a very large proportion of Yukon river water. Such a calamity almost calls for a public mass meeting.

#### Presidential Statistics.

Those persons who flippantly conclude that Major McKinley can be reelected to the office of president of the United States in 1900 because he was elected to that office in 1896, should take counsel of facts-and there are several mighty interesting pieces of testimony connected with the two elec-

In the first place, the Republican party had been out of office for four years when McKnley made his successful race in 1896, That fact left no party sores to be healed up from the standpoint of disappointed office seekers, who had necessarily been "out in the cold, cold world," while a Democratic administration had been in

It must, therefore, be remembered that whatever loss came to the anti-Republican forces in 1896, by reason of sustained by the Republican party this November, because it will occupy a little position at the coming election.

It has been calculated by astute politicians that the conditions named in the last paragraph are worth "a million votes" to the party "out of power." This, of course, means that 500,000 disappointed men, who voted the Republican ticket four years ago will support the Democratic ticket this year. That means "a million votes" in net results, because it takes 500,000 from one party and adds them to the

Without regard to the accuracy of these calculations, there are some "other facts" of interest that should

į	Total vote in 1896	13,923,376
ì	Bryan received	13,607,704
	All other candidates received	815.674

While the entire country gave Mc-Kinley 601,854 more votes than Bryan received therefrom, and 271 electoral votes to Bryan's 176, nevertheless a change of 20,254 votes in the United States named below would have elected

State	Electoral Vote	McKinley's Plurality
Indiana	15	18,181
West Virginia		11,487
Kentucky	12	281
North Dakota	8	5 649
Oregon	4	2.117
California	8	2,782

the figures given, and essary to elect.

Let every man in making up his mind with reference to the results of he presidential contest of 1900, bear these facts and figures in mind, and ask himself candidly whether he thinks the Republican leaders have any advantage in the coming contest, and if so where it can be located and reduced to a mathematical certainty. Seattle to a mathematical certainty. - Seattle

#### Dismal Swamp.

The Dismal swamp in Virginia has played an imporant part in the history of the country. As far back as 1740 it afforded a refuge for the Indians who were being driven out of the country by the colonists. The hardy patriots of the Revolution fled there when hard pressed by the British, causing the swamp to be hardly less famous than morasses in which Marion and Pickens took refuge in the Carolina campaigns. During the civil war thousands of slaves took advantage of its impenetrable shades, into which they were followed after the contest by bands of Confederate guerrillas, who held out for months after Lee's surrender at Appomattox.

#### He Went too Far.

The editor was good natured. He ondescended to read the manuscript. 'Not half bad," he said finally, "but

don't you think you've carried this joke a little bit too far?"
"Well, yes," the humorist replied.
"just about the limit, I should say.
