HE PROTESTS HIS INNOCENCE

Strongly Against the Prisoner.

Three Rivers, Que., June 18.—Judge Bourgeois, in the Hooper trial, in his address to the jury, followed the evidence from the time Hooper took his wife out of the lunatic asylum at Kingston until her disappearance at Louisville, while in his car. His marriage vows to this woman charged him to love and protect her, and that, if she was not thrown into the river by his own hands, he had failed to guard her from falling, and that omission was a

Then the prisoner said: "Your Lordship, I wish to again state before God, before the court and all these people that I am innocent of any crime whatever. I have not had British justice, and I hold in my hand the damaging evidence to show that a Queen's counsel was suborned against me.

"You charged very strongly against me and I believe that you did it in what you believed to be British justice, but it was not justice to me. God is a just God, and

NANAIMO'S SENSATION

as that which occurred ners last weat, the particulars of which have not been previously transmitted owing to a break in the telegraph wires.

On Friday night last Mrs. Sydney Lobb, wife of Accountant Lobb, of the Nanaimo Colliery, was shot through the heart. Death was almost instantaneous. The shooding took place in Mrs. Lobb's bedroom. Her husband communicated the awful news to the neighbors immediately afterwards. Mr. Lobb was very much excited at the time, when at the late hour of il o'clock he rushed over to a neighbor's house and startied the inmates by crying: "My wife has shot herself!" There was no one else in the house at the sime of the shooding. The coroner decided that an inquest was necessary, and after the evidence of the distracted husband, and an examination of the surroundings, the jury decided that it would hardly be possible for Mrs. Lobb to have fired the fatal shot herself.

On their finding the authorities decided that a thorough investigation should be held, and in pursuance of this Mr. Lobb was placed under arrest and an examination of the fates is now in progress before the police magistrate. Mr. Lobb occupied an important position in the colliery and in this city he has always been held in the highest esteem. He is half crazed with grief over the death of his young wife, and the proceedings of the trial place him in a pitiable plight. He admits that he had given cause of grief to his wife and blames himself very much for his conduct.

Mr. Lobb was a former resident of Toronto and before coming to Nanaimo he was with the C. P. R. at Vancouver. The deceased lady, who was a Miss Elliott before her marriago three years ago, is also from Toronto. There are two children, the youngest six months old.

RELAY RACE CONCLUDED.

Messages of Greeting Carried From Sarnia to Montreal.

Toronto, June 16.—The great relay race from Sarnia to Montreal, an event of considerable interest to wheelmen, is over. Before daybreak yesterday a courier was handed a message of greeting from the mayor of Sarnia and from the mayors of other cities and towns on the rontes to the president of the Canadian Wheelmen's Association at Montreal. By relays of bicyclists the message was carried from the Tuniel City to Montreal. Two hundred and twenty of the speedlest bicycle riders in Canada participated in the event, the arrangements for which were made by the Toronto Mail. Au interesting feature was a race from London to Toronto between two divisions of couriers. One route was via Woodstock, Brantford and Hamilton and the other via Stratford, Quelph and Brampton. The former division reached here first, being twenty-four minutes ahead of schedule time.

Two Hundred and Thirty-one Mem Perished in the Karwin Disaster.

VIENNA, June 18.—The number of men who perished in the Karwin mines has been definitely assertained to be 23i.

The mines are in two sections, and have an annual output of 700,000 tons. Most of the coal is consumed in Vienna. All the shafts were provided with the most modern ventilators, including double doors, connecting the working shafts with the air shafts, and oil lamps of the Muzler system. The Franziska shaft is 286 mitres deep and connects by passage with the Johannes shaft, which is 333 metres deep.

BRANTFORD, June 15.—Maria Hartley and Henry Ling, of New Durham, against whom the coroner's jury at Newvich found a verdict of wilful murder in administering poison to Caleb Hartley, the store-keeper at New Durham, and from the effects of which he died on May 13 last, arrived in the city and were promptly lodged in jail. Ling, who was arrested by County Constable Allan, was kept in his

He had been led into his present fix through the woman, and he had no doubt his lawyer, Mr. Jones, would be able to show that he had no part in the business. He admitted the killing of Hartley was an awan affair, but he had no responsibility.

OTTAWA, June 15.—In the Houss of Commons yesterday Sir John Thompson introduced his electoral franchise bill. He said that the principal feature of the bill was that the revision of the lists would provide for the coming into force of the Redistribution Act of 1892. The new lists would be as laid out in that bill, although provision would also be made for the holding of bye-elections as the constituencies were now constituted. The franchise would be the same as in all the provinces. The provincial lists would be used by the revising officer as a basis for the revision. These officers would add names and take applications of those who had been left off the local and Dominion lists were not so great as to necessitate the payment of the extra cost as under the new bill a revision could be made every year. While the Government thus gave up its present federal franchise for those of the provinces it was decided to hold control of the lists by placing them for revision, as a present, in the hands of the Dominion is provinced.

Mr. Laurier congratulated the Government on the change of the provincial lists, but he thought that the obnexions fastarie of the Franchise Act of 1885—the revising barrietz—should be removed.
