KING STREET, CHATHAM.

OLD CHATHAM BOYS' RE-UNION.

It is proposed to have a re-union of the Old Chatham Boys about the middle of August. It is believed that the various societies will enter heartily into the project. Similar gatherings have taken place in Brantford and London, attended by enormous crowds. If properly worked up the affair ought to bring 20,000 to Chatham.

William Somerville has invited all the firemen to partake of ice cream this evening.

SHOT FIRED

A Noisy Row on Adelaide Street Caused
a Commotion Late Last
Night.

Shortly before midnight the screams of women, the angry utterances of men and the loud report of a gun or revolver aroused the residents of Adelaide street, south of Park street.

In an amazingly short space of time a large throng of citizens had gathered on the street, but the trouble—which is alleged to have resulted from a too liberal association with John Barleycorn—was rapidly quieted down.

Officer Dezalia was on the scene a few moments after the occurrence and he secured the early peace.

No police court case has yet been scheduled in connection with the affair.

TEN MINUTES

The Time This Expert Metal Worker
Says it Would Take to Cut the
Jail Bars.

An expert metal worker visited the jail yesterday and was shown the window and bars which were sawn, and by which the three prisoners escaped Sunday afternoon.

When asked by The Planet how long it would take to saw the bars, the expert said it would take, with a good saw, about ten minutes to sever the first bar, another half hour to saw the second bar, and another half hour at the brass lock on the inside.

"The two outside bars were unquestionably sawn from the outside," he said, "as the second bar or the first bar could not be reached from the inside and sawn the way they were."

The first outside bar was sawn almost horizontally, the second one being cut off diagonally, as it had to be seen between the first set of bars, and in a very awkward position.

"The material used in these bars was of the softest kind and should never have been used for that purpose. In making the recent improvements these new guards were put in place."

"On the two outside bars there was a burr on the inside of the cut, which could not be there if sawn from inside."

The expert also gave it as his opinion that had proper steel bars been slipped and fell, his knee striking upon the cattle guards, the sharp points of which penetrated deeply into the flesh, making several ugly gashes.

The man was carried to the Elgin House where his wounds were dressed, and later was taken to his home upon one of the work trains.

DEAD BODY FOUND

Remains of an Old Man Picked up by
Fishermen—Accident on the L. E.
& D. R.

West Lorne, Ont., June 18—The dead body of an old man, about 70 years of age, was found yesterday afternoon by some fishermen on the beach near Conn's dock, on the towline between Aldborough and Dunwich. There were some wounds and bruises upon his head, and it is supposed the old man had fallen over the embankment.

The man, whose name is not known, was seen and spoken to in the morning by Mr. Conway and, it is said, stated that his home was in Detroit. An inquest is being held.

A young man from Ridgetown, named Butler, employed on the L. E. & D. R. steel gang, was seriously injured while returning home. The train had stopped and a number of men got off. Butler, while attempting to board the train after it had started, slipped and fell, his knee striking upon the cattle guards, the sharp points of which penetrated deeply into the flesh, making several ugly gashes.

The man was carried to the Elgin House where his wounds were dressed, and later was taken to his home upon one of the work trains.

GOOD TIME

Col. Leys Cast the Cares of Business
and Officialdom Behind him When
he Visited the Maple City.

Col. Leys, M. P. P., was in the city last evening in company with T. L. Fardo, M. P. P., and several local fishermen from the mouth of the river, via Bagnall's gasoline launch.

"Of course I'm really no longer the member for London," said the genial Colonel in a short interview with The Planet, smiling as he said so.

"But then I hope to be re-elected all right."

"Then you have withdrawn your resignation and all plans for retirement?" was asked.

The Colonel's only answer was another broad smile.

"And what about fishery matters?" was the next query.

"Oh, this is purely a little pleasure excursion on my part," commented the Colonel. "Nothing official connected with it all. Just out on a little outing."

PINGREE IS DEAD.

London, June 19.—Ex-Governor H. S. Pingree, of Michigan, died here last night at 11.35. His son was the only one present at the time of his death. The attending doctor left Mr. Pingree's bedside at about 11.05, promising to return shortly. H. S. Pingree, Jr., who has been watching at his father's side for four days, and who has not removed his clothes during that time, noticed a sudden change in his father's condition. He had barely reached the patient's bedside when his father died peacefully, without warning and without speaking one word. Young Mr. Pingree has wired his mother and his uncle in the United States not to come to London. The body of the late Mr. Pingree will be embalmed and taken to his home.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed, you have a rumbling sound, or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
