THE ADVOCATE

Extract from a letter of a Cana-  
dian soldier in France.

To Mrs. E. D. BAMBRICK:  
The Rectory, Yarmouth, N.S.

Dear Mother:—  
I am keeping well, have good  
food and well protected from the  
weather, but have some difficulty  
keeping uninvited guests from  
visiting me.

Have you any patriotic drug-  
gists that would give something  
for a gift overseas—if so do you  
know something that is good for  
everything? I do—Old MINARD'S  
Liniment.

Your affectionate son,

**WILL BE BURIED  
IN WESTMINSTER**

Bonar Law's Funeral Held On  
Monday.

The body of Andrew Bonar  
Law, the former premier, was  
buried in Westminster Abbey at  
noon Monday.

The funeral service was a full  
choral service conducted by the  
Dean.

The newspapers pay outstand-  
ing tributes to the memory of  
Andrew Bonar Law, former Brit-  
ish premier, who died Tuesday.

The Tribune says he was justly  
"lauded as a high minded and  
patriotic political doer, not a  
talker, pursuing unswervingly  
what he considered to be his duty  
fair, honorable and honest as the  
daylight."

It says he succeeded in politics  
because he disarmed distrust and  
created confidence and that he  
won his way by dint of character.

The Tribune says his death is a  
great misfortune for Great Brit-  
ain, "which loses in this Canadian  
born statesman one of the stanch-  
est and finest figures in her con-  
temporary public life."

"It is to such intensive work-  
ers, sparing of rhetoric, candid of  
soul, and unflinching in their  
political beliefs and conduct that  
democracies must more and more  
turn if they are to avoid demag-  
ogy and degeneration."

The World after paying tribute  
to his character and achievements  
says he is "remembered affection-  
ately by supporter and opponent"  
because throughout his political  
life he played the game with con-  
spicuous fairness, unselfishness,  
integrity and candor.

The Herald says Mr. Bonar  
Law was stable, cautious, trust-  
worthy and possessed of an integ-  
rity which no political excitement  
or temptation ever shook.

After commenting on his career  
both in business and politics, the  
Herald says:

"Bonar Law was a public servant  
of a sort which we have not yet  
produced in large numbers in  
America. Here the antagonism  
between business men and politi-  
cians is perhaps too great for any-  
one to turn easily from the one  
field to the other. Yet our politics  
might be on a healthier basis if  
our industries or enterprises were  
able to produce occasionally men-  
who like Bonar Law would devote  
the last years of their lives to in-  
troducing into public business the  
honesty and efficiency which they  
had applied successfully in private  
business."

**FORD TO BUILD  
30,000 HOMES**

Erection of 30,000 homes on a  
5000-acre tract of land south of the  
Dearborn plant of the Ford Mot-  
or Company is planned by the Ford  
Company, Henry Ford announced.  
The houses are to be constructed of  
cement according to a plan perfected  
by Thomas A. Edison.

The plans call for pouring of the  
cement into a set of forms and these  
moulds can then be arranged into  
12 different types of house, it is as-  
serted. The lumber in the house is  
to be obtained from short pieces of  
timber usually allowed to go to  
waste by lumber companies.

The houses will be sold to any  
person who desires to buy them and  
at a price which is close to cost  
Ford said. Purchasers will be given  
the advantage of the difference in  
land values now and when the tract  
of land was purchased 8 years ago.

**MINDING OUR  
OWN BUSINESS**

The difficulty otherwise sen-  
sible people experience in minding  
their own business is one of the  
great weaknesses of humanity  
The Cincinnati Times-Star says:—

"It seems the hardest thing in  
the world for some of our fellow  
citizens to mind their own busi-  
ness. They must always mind the  
other man's. If they devoted to  
self improvement a tithe of the  
energies which they expend in  
forcibly improving someone else,  
the republic would be very near  
the Golden Age. As this benefi-  
cent shift of effort is not in their  
thought, it behooves the law to  
effect it by constraint, and by  
penalties that shall make them  
regret their abominable acts more  
than a little."

This leads the British Colum-  
bia Colonist to remark that it  
would be hard to expect the law  
to step in to put a period on  
man's activity in minding other  
people's business, unless that in-  
terference became a menace to  
society. There is no way, in-  
deed, in which people can be  
stopped from persisting in mak-  
ing other people think as they do  
except by a broadening of educa-  
tional viewpoint.

Men, because of their penchant  
for talk fests, are becoming more  
and more gregarious. We are  
suffering from a plethora of or-  
ganizations and associations, and  
surfeited by resolutions and de-  
mands. We are losing the pow-  
er of independent thought based  
on a silent and prolonged study  
of the experiences of the past.  
The newspapers are, perhaps, to  
blame because they permit almost  
any individual, no matter what  
may be his paucity of intelligence  
to rush into print on so many oc-  
casions when he is accomplishing  
no good and serving no end save  
to uncover his own weakness and  
to use up a little white paper and  
printer's ink. The world is one  
great forum, with a babel of ton-  
gues. There are too many talk-  
ing and writing without thinking  
and too few thinking without  
talking or writing. One thing  
that the spread of democracy has  
done is to loosen the floodgates  
of verbosity.

What a splendid world this  
would be if everyone minded his  
own business. It would be a  
world of great hearts and concen-  
trated self effort, and in the ag-  
gregate a hundred times more  
would be accomplished in such a  
world than is being done today.

**IMPROVEMENT  
IN LUMBERING  
SITUATIONS**

North Shore Now Has Pros-  
pect of Large Operations—  
Labor Situation is Changing  
for Better.

The Chief Scaler, A.T. Mur-  
chie has returned from Restigouche  
County and other districts of the  
North Shore, where he was on an  
official tour. The information  
given him was that the cut  
on Crown Lands in that section  
would be heavy with the labor  
situation improved to a marked  
extent.

Mr. Murchie said that offers of  
wages of one hundred dollars per  
month are mythical no matter  
what reports come from Quebec.  
In New Brunswick \$50 and \$60 is  
the ordinary scale with some oper-  
ators in southern sections offering  
\$70.

**More Labor Offering.**  
More labor for the lumber-  
woods is offering as time goes on  
and farm work and heavy con-  
struction work is completed. It  
is not believed now that the scar-  
city of labor will cause serious  
curtailment in lumbering opera-  
tions.

A crew of seventy five men  
secured in Prince Edward Island  
recently went in for Fraser  
Lumber Company's Limited and  
another crew of one hundred  
secured at Moncton went in for  
the same firm.

The general situation as far as  
woods operations on the North  
Shore are concerned is much  
better than it was frequently when  
some contracts were being thrown  
up. The general expectation is for  
a heavy cut of lumber in all parts.

"One day last Fall whilst away in the woods, I cut  
my leg severely. Proper surgical attention was  
unavailable, and poisoning developed caus-  
ing the leg to swell to twice normal size.  
The wound had denied every other  
salve and remedy when Zam-Buk  
was brought and applied.

"From the first this herbal balm  
had a most gratifying effect. It  
removed pain in a surprising way,  
caused the wound to lose its swollen  
inflamed appearance, and by degrees  
accomplished complete and perfect  
healing. It made me realize that you  
can't do without Zam-Buk."

**Comfort for Churches Halls  
Homes Stores**

The Cumberland Pipeless Fur-  
naces is ideal for most churches and  
halls because the moment the fire  
is started it immediately floods the  
building with warm direct heat. No  
time wasted heating pipes or water  
the Cumberland goes into action at  
once.

It is splendid for stores and homes  
for the same reason. And besides—  
---Its first coat is less than other  
furnaces.

Its cost of installation is lowest  
(no pipes to put up, only one reg-  
ister needed, no walls to be cut).

---Its built stronger of heavier  
material than other furnaces so lasts  
longer.

---Because it operates on the grav-  
ity principle, there's nothing to get  
out of repair.

---The colder the weather, the  
greater the heat it develops and  
delivers.

---It can be installed in a few  
hours. All work is done in the cell-  
ar so you can put one up in mid  
winter without upsetting the house.
