NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an am-
azingly brilliant, soft, white light
even better than gas or electricity.
has been tested by the U.S. Govern-
ment and 35 leading universities
and found to be superior to 10 or-
dinary oil lamps. It burns without
odor, smoke or noise—no pumping
up, is simple, clean, safe. Burns
94% air and 6% common kerosene
(coal-oil).

The inventor, J. M. Johnson, 244
Craig St. W., Montreal, is offering to
send a lamp on 10 days' FREE trial,
or even to give one FREE to the
first user in each locality who will
help him introduce it. Write him
to-day for full particulars. Also ask
him to explain how you can get the
agency, and without experience, or
money make \$250 to \$500 per month.

ANTI-ACCIDENT CAMPAIGN IS WAGED

By Large Industries in the
United States

Accidents and their prevention are
causing grave concern in American
industries today and unprecedented
efforts are being made to prevent
them. Of the 41,000,000 persons em-
ployed throughout the United
States at present some 2,500,000
meet every year with more or less
serious accidents. As a result of
these accidents a total of 227,000,
000 working days were lost last
year. If the average pay of \$4.50
a day be multiplied by the total,
it will be seen that the loss
to wage earners alone in a year
totals over \$1,000,000,000. In
other words the lost time caused by
accidents in a year is equivalent to
that lost by over 750,000 men out
of employment for an entire year.

To reduce the loss caused by ac-
cidents many great industrial plants
have organized elaborate campaigns
of education and devised highly in-
genious systems for safeguarding
their employees. This unique war-
fare is waged relentlessly day and
night with increasingly gratifying
results. In the Bethlehem Steel
plants for instance with their 70,000
employees covering many trades, the
number of accidents has been re-
duced by nearly one-half during the
past eight years. Accidents to
the eyes of workmen which were
numerous in the past have been
practically eliminated. It is inter-
esting to find that the largest num-
ber of all accidents comes from
slipping or tripping in the work or
from handling materials or tools.

The programme includes safety in-
spection work, promoting safety cam-
paigns, stimulating live interest in
safety work and the maintenance of
worker's safety committees. Over
5,000 workers have been trained
under the supervision of the medi-
cal staff, in accident prevention and
first aid work. Each year over
1,000 men are given this training.

Well-equipped medical depart-
ments are maintained and first aid
stations are established at all im-
portant centres in addition to
hospitals. Members of the first
aid units raise a small flag by
their posts in the mills or shops
where they may be working. In
the case of an accident the bag
indicates where first aid assistance
can be had until such time as a
doctor can be called.

RADIOGRAPHS TELL STORY

One of the most effective methods
of safety work is the custom of
taking photographs and obtaining
descriptions of every accident.
From these photographs striking
posters are prepared illustrating
graphically just how the accident
occurred with all possible realism.
The poster or illustration is usually
in two parts showing the scene be-
fore and after the accident, and
stressing the example which result-
ed from carelessness. The name
of the injured workman accompany
the pictures and no details are
omitted which will help to drive
home the lessons of the accidents
to other workers. Charts and vari-
ous forms of circulars and other
literature reporting accidents, and
drawing the lesson they teach are
prepared and circulated throughout
the plants weekly.

ATTRIBUTES LOSS OF

KENT AND HALIFAX

TO RAILWAY POLICY
Prince Rupert, Oct 14—The Gov-
ernment's Railway policy had lost
it two by-elections in the east Pre-
mier MacKenzie King told a large
audience here; yet that policy
would be rigidly adhered to. Sir
Henry Thornton and the directors
of the Canadian National Ry.
would continue to have as free a
hand in running the system as
President Beatty had with regard
to the Canadian Pacific Railway.

CONSERVATIVES AND LIBERALS JOIN FORCES IN VOTE

London Oct 8—Great Britain's
first Labor Government virtually
came to an end at 11 o'clock to-
night when by a combination of
Conservative and Liberal votes the
House of Commons carried a mo-
tion demanding that a select com-
mittee of the House investigate
the action of Attorney General Sir
Patrick Hastings in withdrawing
prosecution in the case of the Com-
munist, James K. Campbell acting
editor of the Workers Weekly
charged with inciting His Majesty's
forces to sedition.

The Government declined to ac-
cept the motion and treated it as
a vote of censure which if adopted
by the House would involve an ap-
peal to the country against Parlia-
ment's verdict. The debate was
sharp and exciting and after it was
closed the Opposition wanted to
drop Sir Robert S. Horne's motion
of censure and vote on Sir John
A. Simon's amendment calling for
an investigation. On the Govern-
ment's refusal to accept this course
the House divided on the question
as to which it should vote on. By
a vote of 359 to 198 it was decided
to vote on the Simon amendment.
This was equivalent to the defeat
of the censure motion and the
Simon amendment became the sub-
stantive motion and was carried 364
to 198.

Announcement of the figures was
received with loud cheering and
counter cheering. The Prime Min-
ister, Ramsay MacDonald immedi-
ately arose and said "In view of
what has happened Mr Speaker I
move that the House do now adjourn."
This was agreed to unanimously.

The Premier will see the King to-
morrow and ask for a dissolution of
Parliament. It is understood how-
ever, that the Government has decided
to carry on until the Irish boun-
dary bill is safe and the boundary
commission appointed.

Throughout the final scenes the
excitement rose to the highest
pitch; jibes and retorts were flung
across the House and some of the
members indulged in singing. Up
to the end there were rumors of
manoeuvres to avoid defeating the
Government but if, as appeared not
improbable from the tone of some
of the speeches, there was some
disposition on the part of the Op-
position to reconsider their tactics
they had seemingly committed them-
selves too far to recede.

THE REAL REASON

Parents are talking a lot these
days about the carelessness and the
irresponsibility of children. As a
matter of fact the trouble with most
children is carelessness and irresponsible
parents.

WAS LARGER THAN LAST YEAR'S RECORD

The consensus of opinion among
hotel keepers, garage proprietors
and others interested is that
the number of American tourists
during the season just past was
larger than last year's record.
Some even place the total for 1924
as nearly double that for the pre-
ceding year. Merchants report
that the volume of business done
with the traveling public is not
nearly so great as it was four or
five years ago although some of
them say that this year was a
considerable improvement over 1923.
Tourists formerly bought many ar-
ticles here; clothing and especially
fur and wool articles predominating.
During the past three or four years
there has been less busi-
ness done in these goods.

Bakers Increase Price Of Bread

Bakers' bread has gone up a cent
a loaf in price and is now retailing
at 13 cents instead of 12; as it
has for some time past.

Head and Chest Colds Relieved In a New Way

A Salve which Releases Medicated
Vapors when Applied Over
Throat and Chest.

Inhaled as a vapor and, at the same
time absorbed through the skin like a
liniment, Vicks VapoRub reaches imme-
diately inflamed, congested air passages.
This is the modern direct treatment for
all cold troubles that is proving so popu-
lar in Canada and the States where over
17 million jars are now used yearly.
Splendid for sore throat, tonsillitis,
bronchitis, croup, head and chest colds,
catarrh, asthma or hay fever.
Just rub Vicks over throat and chest
and inhale the medicated vapors. It
quickly loosens up a cold.

**VICKS
VAPORUB**
OVER 17 MILLION JARS USED YEARLY

The bakers state that the in-
crease is due to the rise in the
price of flour which has followed
closely on the increase in the
price of wheat which has been
world wide. It is said to be pri-
marily due to the reported small-
ness of the crops in this country
and in other wheat producing areas.

that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets
of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Assuring Your Business

A policy of advertising is a policy of life
assurance, and the protection thus secured is
well worth its annual cost.

Old customers die or move away—they
must be replaced.

Old customers are subject to the influence
of temptation—they may be induced to divide
their custom—to do some of their shopping
at a competitor's.

New comers to this community will
shop with you—become regular customers—
if they are invited to do so.

Your competitor's advertising is an in-
fluence which must be offset if you are to
maintain your trade.

Not to advertise regularly to the read-
ers of the UNION ADVOCATE is to leave
your business unprotected.

A WORD TO THE PUBLIC

It is no sign of weakness to follow the lead of
advertising. You owe it to yourself to get the
most for your money, the best goods and the
best service. And if you find that your in-
clination is to shop where you are invited to
shop rather than to continue to be a customer
of the shop which never solicits your good-will
you need have no compunctions of conscience.
