**Will The Total Cost
Be \$500,000?****Expense Of Organic Church
Union**

Toronto, April 17—Questioned regarding the total cost of effecting the organic union between Methodists, Presbyterians and Congregationalists, Rev. Dr. Laird, treasurer of the Presbyterian Church in Canada, was asked whether it was reasonable to put the figure at \$500,000. Dr. Laird refused to discuss the cost; stating that figures in this connection would be presented and

Here and There

Agents specializing in Irish business in Canada and the United States look for a big boom in steamship passenger traffic, according to reports received from steamship companies. The present outlook is said to be for the highest level of emigration to Canada since the war.

Sir William S. Glyn-Jones, Secretary of the British Pharmaceutical Society, is touring Canada under the auspices of the Canadian Pharmaceutical Association with a view to explaining the workings of the Proprietary Articles Trade Association of Great Britain. He is opposed to "cut-rate" methods of selling drugs.

With 3,600,000 milch cows, 300,000 dairy farmers, 1,500 creameries and many thousand cheese factories, Canadians are the greatest 'butter eaters' in the world with an annual average per capita consumption in 1923 of 27.43 pounds, according to Percy Scott, secretary and treasurer of the National Dairy Council of Canada.

The shield taken from the gates of Quebec City when the Ancient Capital was taken in 1759 and which was donated to the City of Hastings by one of the conquerors, General Murray, will be returned to Quebec after an interval of 165 years. Lord Wellington, First Viscount Ratten, will be the special emissary who will bring the Shield back to Canada.

Salmon-fishing in the Eastern Townships of Quebec will be one of the attractions of that region when the Gaspe salmon eggs brought to the provincial government hatcheries at Lake Memphremagog are developed. A number of trays packed in ice and holding some thousands of eggs recently passed through the Canadian Pacific Railway warehouse on the Montreal Windsor Station for St. Paulin and Mont Tremblant.

Miss P. Carlisle, an English authoress of repute, who recently took up ranching near Calgary, has become so enthusiastic about the West that she is planning to bring out girls from the Old Country to follow her example. She found plenty of them willing to try out this plan. She herself harvested 7,000 bushels last year from the 250 acres under wheat on her 800 acre ranch.

By winning the New Brunswick Provincial Trophy Competition of the St. John Ambulance Association in March last the Canadian Pacific Railway First Aid team from McAdam, N.B., now have a chance to compete this year for the Montserrat Trophy emblematic of the championship of Canada in First Aid. The team has a record of four championships to their credit since last June.

At a recent meeting of the Royal Society of Canada a gold medal for outstanding achievement in science was awarded to Charles Saunders for his discovery and development of "Marquis" wheat. It is claimed that this variety has raised the Dominion to its present position as a wheat-growing country and has added millions of dollars to the pockets of farmers here and in the United States.

Exiled from Hungary of which he had been president, after the Communist revolution of 1919, Count Michael Karolyi toured the United States in March and April but was forbidden to address meetings or explain his political views in that country. He returned to London where he now lives, with Countess Karolyi, passing through Montreal and sailing on the Canadian Pacific S.S. "Montclare" from St. John. Interviewed in Montreal he expressed a great admiration for Canada and said he had once been on the point of settling either in Montreal or Toronto.

PERSONALS

Mr. C. J. Morrissey, M.L.A. spent the week-end at his home here.

Miss Edna Vye of Blackville has returned home from a pleasant visit with friends in Moncton and Halifax.

Miss Sadie E. Urquhart spent Easter with friends in Amherst and Fort Lawrence.

Mr. and Mrs. James Stewart of Moncton spent the week-end with friends in town.

Miss Mary Martin of Chatham spent the week-end with friends in town.

Mrs. Minnie MacTavish of Lawrence, Mass., is spending the summer with her sister, Mrs. George McKay.

Miss Marguerite Maltby has completed a commercial course in Montreal and has returned home.

Mrs. A. P. Metcalf, of Sunny Brae is visiting her parents Mr. and Mrs. A. C. Allyn.

Miss Jean Robinson is visiting in Woodstock the guest of Hon. W. P. and Mrs. Jones.

Rev. F. E. Bishop attended the meeting of the Baptist Home Mission Board held in Moncton.

Ruth Anslow of Campbellton spent several days of last week, with her grandparents Mr. and Mrs. Wm. Corbett Sr.

Misses Lou and Marjorie Henderson of Douglastown spent Easter with friends in St. John.

Mrs. J. D. Paulin spent Easter with her son Edouard, who is a student at Sacred Heart College, Bathurst.

Mrs. Chas. Gough was called home from New York last week owing to the serious illness of her mother; Mrs. R. L. Maltby.

G. Percy Burchill, accompanied by Mrs. Burchill sailed for England Friday, on the steamer "Montrose" from St. John.

Mr. W. J. Sutherland has severed his connection with Mr. Joseph Napke and has accepted the position as representative for Newcastle for the Sun Life Assurance Co. of Canada.

Mrs. Minnie MacTavish arrived here on Tuesday to spend some time with her sister Mrs. George C. McKay after an extended visit of over three years with her sisters Mrs. L. Bellnap of Lawrence and Mrs. H. Atkinson of Boston.

**Hindenburg Drive
Perturbs Britain**

The candidacy of Field Marshal Hindenburg and the possibility of his election to the presidency of the German Republic in succession to Ebert is arousing the press of the country to state exactly what his election would mean.

The fears they express in these articles is not so much that Germany is about to embark on preparations for a war of revenge or of a return to the Monarchical system of government but the effect of his election on France and its incitement to demand even more stringent terms with the object of securing an even stronger feeling of securing than they were demanding.

**LITTLE ISLAND
OFF NOVA SCOTIA
OOZING WITH OIL**

Cape Sable Island, a little two by four splinter broken off the southernmost tip of the peninsula of Nova Scotia and separated from the mainland by a stone-throw space of swift rushing Atlantic tide, is literally bubbling with oil. Whether the oil is "flowing gold" or valueless exudation peculiar to the col of the island, remains to be ascertained as no scientific tests have been made. Another suggestion advanced by the

**Tonic Treatment
For Indigestion****The Surest Way to Relieve
Stomach Trouble is Through
Dr. Williams' Pink Pills.**

When the stomach is feeble and food lies in it undigested, the poisonous gases distend the walls of the stomach and cause serious interference with the other organs; especially with the action of the heart and lungs. These poisonous gases have other ill effects. They are absorbed by the blood and so weaken and corrupt it as to cause aches in remote parts of the body and the formation of unhealthy tissue everywhere. Experience shows that these troubles vanish just as soon as the stomach is made strong enough to digest the food. In other words; it needs a tonic that will enable it to do the work of changing the food into nourishment. The tonic used ought to be one that will agree with the most delicate stomach and this is exactly what Dr. Williams' Pink Pills do.

Here is a bit of convincing proof given by Mrs. Chas. Ladner, Ellerslie, P. E. I. who says:—"For some years I was a sufferer from stomach trouble. Everything I ate caused distress; sour stomach; and belching I could not eat meat or potatoes; and I grew weak and very nervous. No medicine seemed to help me until I was persuaded to take Dr. Williams' Pink Pills; and these simply worked wonders. I took the pills faithfully for a couple of months; by which time every symptom of the trouble had disappeared; and there has not since been the slightest symptom of stomach trouble. No wonder I praise Dr. Williams' Pink Pills."

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

skeptical is that the oil has been fattened by some great oil-burning steamer and washed ashore by the tide.

The latter explanation of the oil's presence is considered unlikely however, as the deposits have all seemed to originate in a savannah or meadow that occupies the greater portion of the island and is ringed about by a ridge of high and dry land upon which the island residents have founded their homes.

Reports of oil discoveries on the island have persisted for months, the signs having been seen in several places, all in the vicinity of the Savannah and in some cases apparently oozing through the soil. Practical jokers were credited by some as being responsible for the 'discoveries' but the people generally become convinced that the oil, whatever its composition or value has originated in mother earth and they are wondering if they are sitting on a storehouse of great wealth.

The latest and most convincing indication of the presence of oil came a few days ago when it was noticed that the waters of a small brook flowing across the island; was covered with an oily deposit or a dark thick and heavy substance with every appearance of oil. It was noticed where the brook runs under a bridge in the centre of the town of Clarke's Harbor, capital and only town on the island. Thoughts of a hoax came first to the spectators but when the substance increased in volume that thought was dismissed and some of the deposit was obtained for a crude test. It was found to burn readily and gave an oily reaction to ordinary tests.

The brook flows from the Savannah which at this time of year is always flooded and offers a great obstacle to a search for the source of the flow. The deposit in the brook has been continuously noticeable and citizens are con-

sidering taking steps to have it investigated by experts.

Cape Sable Island is an oblong piece of land seven miles long and two or three miles wide. It is connected with the mainland at Barrington Passage by a small steam ferry. Fishing and farming take up the attention of the few hundred people who inhabit the island chiefly fishing.

**British Laborites
Would Socialize
Banks, Industries**

Socialization of British industries and banks will be a major issue in the next general election.

The Independent Labor party has before it a minority and a majority report from its financial committee. The former recommends confiscation of banks and industries; the latter urges seizure with compensation to the owners. It is practically certain that one of the two will be adopted by the I.L.P., which includes most of the ablest British Socialists including Ramsay MacDonald and members of his late cabinet.

Between them the committee reports represent the considered opinions of a large majority of the party.

After a long debate the reports finally were referred to the individual branches of the organization for further consideration. From the debate it must be assumed that those who favor the majority report believe Socialization of banks and industries should occur gradually, by a transfer of the properties from private ownership to public service.
