The Policy of Sir John.

London, October 8.—The Baroness Macdonald, commenting on the recent elections in Canada, says: "I had not dared hope for such a sweeping answer from the people of Canada to Sir Wilfrid Laurier's attempts to separate Canada from the Empire, and by his reciprocity policy to pave the way for annexation and absorption. I feared not only the lure of certain advantages, but the influence of American money, sure to be freely used to secure, if possible, the policy America desired to see carried out. The Imperial policy to which my husband's long and strenuous life was entirely devoted, has been consistently justified, sustained and carried by the route of the party he had ever fought against, even to the last. His voice was silenced 21 years ago, and his powerful personal influence is gone for ever, but I feel he yet speaks as from the family chambers and wild congratulations which greeted the success of his Imperial policy."

Was on the Stump.

Providence, R. I., Oct. 7.—Alleging that he took the stump in Canada in opposition to reciprocity, in the name of his company unwarrantedly, the stockholders of the Credit Foncier, Canadian, a French Canadian Lumber and real estate corporation today voted to oust Arthur Laberge of Montreal as their Vice-President. Only twenty of the eighteen hundred stockholders voted in person, others being represented by proxies voted by the Secretary, Joseph W. T. Riquie. Mr. Laberge attended the meeting and made an extended speech claiming that his campaign work in Canada was done entirely as an individual and not in the name of the company. Of the 1,800 stockholders, 1,500 are residents of New England and the others of Canada. The company owns lumber tracts in New Brunswick and Quebec.

Our store has gained a reputation for reliable Groceries. Our trade during 1910 has been very satisfactory. We shall put forth every effort during the present year to give our customers the best possible service.—R. F. Madigan.
