Baking at home is worth while

when gratifying results like this can be obtained at little cost of time and money, with

"Paisley Flour"
The SURE raising powder.

The method is to mix dry one part "Paisley Flour" with six to eight parts ordinary flour.

Home baking by this method can be successfully acquired with very little practice, and everything is so light and well-raised that it can be eaten new without fear of indigestion.

Paisley Flour is sold in 22c, 14c, and 5c tins. The 5c. tin will raise one pound of flour; the 14c. tin 3 1/2 pounds.
