Four new recruits signed Hon. J. R. Bennett the roll yesterday. Their names are:-Lewis Oran, Deer Islds.,

George Squires, Salvage Bay, B. B. Kenneth Mullett, Wesleyville. Philip Chafe, Petty Harbor.

# College Hockey

A fast and most exciting hockey match between the Feildians and St. Bon's closed the Inter-Collegiate series at the Prince's Rink last evening. The St. Bon's won by 15 goals to 3. W. J. Higgins. The attendance of spectators was very large and a brilliant sheet of ice offered.

The game opened at a pace that would be, at least, too fast for our senior League teams. Ewing inside of five minutes scored the first goal for his side, followed by their more formidable opponents scoring four times in quick succession.

During the second period of the grow hair. game the Feildians fell to pieces, being unable to stand the strong attacks made by St. Bon's. Mr. J. Tobin refereed and the players were:-

## A Mysterious Worm

Comes to Surface of Sea Twice a Year. A mysterious species of worm inabits the Pacific Ocean in the neighourhood of Fiji. The balolo worm, as the natives call it, lives at the bottom of the sea, but twice a year milions of them rise to the surface and

remain there for a short time. The worm is very thin, and measures form an inch to a foot long. It has a tiny pointed bead, even under the microscope no nerve or brain can be seen, and it has thousands of little

When two masses of these worms mect they always pass each other to

The rising of the balolo, which falls in October and November, is an occasion of great feasting for the natives of the islands, as the worms make a tasty dish, and are prepared in a variety of ways. The natives go out in their light canoes and catch them in fore baskets. If a native falls overboard into the mass, his is an awful death, for it is a hard task to save him from sinking into the midst of the wriggling, clinging worms. The hour before dawn sees these

laysterious creatures disappear for the rest of the year. So far no one has discovered why

they come to the surface for so short awhile, and how and where they spend the rest of their time.-Pearsons'

why she buys Zam-Buk when in need of a household balm—because she knows that it will give better results, last longer, and keep better than any ordinary ointment. A small quantity of Zam-Buk will give better results than many times that quantity of an ordinary ointment. It is, therefore, not only best, but most economical. Besides, as Zam-Buk contains no animal fat it can-not turn rancid, and remains perfeetly good to the last application.
Zam-Buk's superiority is due to the fact that it is all medicine, whereas ordinary ointments contain a large proportion of animal fat and a small percentage of medicine Zam-Buk is not only soothing and healing, but it is germicidal. This makes it invaluable as a "first-aid." An application of Zam-Buk to a wound as soon as sustained will prevent all danger of blood-poisoning. Zam-Buk is splendid for eczema, ringworm, scalp sores, ulcers, abscesses, old wounds, blood-poisoning, pimples, boils and piles, as well as cuts, burns, scalds, bruises, and all skin injuries. 50c. box, 3 for \$1.25. All druggists and stores, or Zam-Buk Co., Toronto. Send 1c. stamp for free trial box.
