**Perfection Tire & Rubber Co.**  
bases its prospective success upon these facts:—  
1. It owns the exclusive right to build asbestos-fabric tires instead of the usual cotton-fabric ones. ASBESTOS is a mineral and COTTON is a vegetable, and YOU know which will prove to be the better Tire.  
2. All Tire companies are oversold, hence there is lots of room for another tire company that didn't even own an exclusive feature.  
3. The automobile and tire age is only in its infancy.  
4. Many more by-products can be created by the use of Asbestos than other tire concerns now manufacture.  
5. Unlike previous tire companies, it begins business with ample capital, modern machinery, spacious factories and an established market.  
\*There are many more reasons why. Let us tell YOU about them.
