WHY WE KEEP IT UP.

I have some days, most days, in fact, When on the lowlands I am crass, But on the hills I counteract This was by picking up some class.

I have some days, most days, it's true, When I can't drive two hundred feet, But hopes that drop their pep re- new When my approaches turn out neat.

If midiron efforts lack in style And mangle swings are short or long, My putting holds 'em for a while And in my heart there is a song.

The club's our greatest optimist: If now and then a noble shot Rewards his eye and arm and wrist His rotten work is all forgot.

C. OF E. GARDEN PARTY TO-DAY.

The annual Garden Party in aid of the C. of E. Orphanage takes place this afternoon at the Orphanage grounds. The inclement weather during the last two evenings greatly interfered with the arrangements, but last night a large number of willing workers were on the grounds and the tents were all erected. The C.L.B.C. are in charge of the sports programme which promises to be very interesting, comprising as it does all the popular track events. The football will also be interesting, the matches having been arranged as follows:—Seniors, Star vs. Fieldlans; C.E.I. vs. Guards; Juniors, Gaelic vs. Scouts; Holy Cross vs. Wesley. The Mount Cashel and C.L.B. Bands will be in attendance. The various stalls will be well supplied and the most delicious teas will be served. As the Orphanage is badly in need of funds owing to the Garden Party receipts last year being very short, it is hoped there will be a large attendance, especially in view of today's glorious weather.

MR. J. A. AHERN.

Mr. "Gee" Ahern, the well-known Sporting Editor of the Halifax Herald, has resigned and will in future conduct a Sports Weekly at the neighbouring city. Many will recall with pleasure the sterling tribute Mr. Ahern paid our athletes two years ago when they visited Halifax.

KILBRIDE GARDEN PARTY THIS AFTERNOON.

Extensive preparations have been made to accommodate the large gathering who will assemble at Kilbride this afternoon to take part in the annual Garden Party. The Pony Racer promises to be very exciting, whilst the football fives and other side attractions will complete a very interesting programme. The C.C.C. Band will furnish the musical turns in their own good style. We understand that a special train will leave for the grounds sharp at 3 p.m. All that is needed, therefore, is a fine day to insure success.

DEATH ON THE ROAD.

Boston Transcript: With fifty persons killed by autos in Massachusetts last month, the war in this State goes merrily on.

FOR HOME CONSUMPTION ONLY.

Louisville Courier-Journal: President Harding would use the co-operative idea, according to his address at Idaho Falls. But he won't apply it to foreign relations.

DEPORTMENT IN CHICAGO.

Chicago Herald-Examiner: Chicagoans are behaving excellently. There seems to be much better deportment than usual. It may be the increased number of electric fans or the universal automobile or better aired offices or all the physical aids, or, at bottom, Chicago's ideal Summer resort.

sort weather, but we prefer to think that people are cultivating a finer serenity, which makes them pleasant companions and neighbors.

THE EMPIRE EXHIBITION.

London Telegraph: The British Empire Exhibition, though it will have its practical side, will also be a demonstration in the higher patriotism. Its success or ill-success—and its failure is unthinkable—will be accepted not merely by our kith and kin, but by the world, as an index to our serious purpose when we speak of plans for the development and settlement of the vast estate of which we and our fellows overseas have become the joint heirs.

IF WAR WERE ABOLISHED.

New York American: If war, and all militarism, could be abolished in the earth, the world would bound forward toward the golden age as if touched by the spur of God. This means not only war between nations, but also war between capital and labor, and between all other opposing sections of society. Arbitration means intelligence and justice, in lieu of brute force. Evolution is the survival of the fittest. The fittest brute survives by competition, the fittest men by co-operation.

Knocks and Knockers. Opportunity seems to go on 't' theory that we kin all afford 't' lose. Some folks never question Opportunity. They seem 't' think Providence has sent him.

Tipton Bud heard a knock on his door a year or so ago an' bought \$900 worth of mine stock. He thought it was his Opportunity, but instead it was 't' agent's—Abe Martin in Farm Life.

Jugo-Slavia to Acquire Fleet.

ROME, July 6.—Reports that the French Government has sold Jugo-Slavia the old Russian Monarchist fleet now concentrated at Bizerta has caused a tremendous sensation here. M. Straujan, head of the Russian Soviet mission to Rome, declared in an interview Thursday that "While Italy, England and the United States would not stoop so low as to purchase a stolen fleet, a smaller power might do so."

The newspaper Vocere Oublicana states that the fleet is composed of twenty-nine units, including battleships, torpedo-boats and submarines, and will at first be sold privately, ostensibly for scrapping, but that it will later be re-sold to Jugo-Slavia.

It adds that the report must be linked with the fact that the French Parliament recently voted a credit of 300,000,000 francs to Jugo-Slavia and that a French general (Lenron) has just completed an inspection of the coastal defences of the country, recommending reinforcements. The paper concludes that the ultimate home of Wrangel's fleet will be at Cattaro.
