DRESS and MANTLE MAKING

The Fashionable West End.
To the Ladies:
We have during the past two years contemplated the establishment of a Dress Making Department, in connection with our other branches. The difficulty of obtaining a suitable person to take charge, has, up to the present time, only prevented us from doing so.

We have now great pleasure in informing you that we have secured the services of Miss MORRISON, of Toronto, a lady of first-class abilities, highly recommended to us, and we believe eminently qualified to give complete satisfaction in every respect. Miss Morrison has for the past ten years occupied the position of cutter and fitter in one of the leading Fashionable Dress-making Establishments in the City of Toronto.

Miss Morrison is also an experienced Mantle maker, and all orders entrusted to her will be executed in a style equal to anything that can be obtained in the largest cities.

Orders for these departments will be received on and after Monday next, the 4th of May.
A. O. BUCHANAN,
Fashionable West End Dress, Mantle and Millinery Establishment.

Guelph Evening Mercury

THURSDAY EVENING, JUNE 12, 1873

Town and County News.
Boys of England, Chambers' Journal, Sunday Magazine, Quiver, and English Woman's Magazine, for June, are on hand at Day's Bookstore.

IMPORTANT.—The potato bug exterminator at G. B. McCullough's Drug Store—warranted to give satisfaction or the money refunded. He has also the Chinese Garden Powder. See adv't.

PRACTICE.—The fire brigade was out last night for practice, but did not enjoy it much, as the hose appeared to be unsubstantial, and burst in several different places as soon as everything got into full play. After several unsuccessful attempts to overcome the difficulty, the engine was returned to the house, and the "boys" went home.

KNOX'S CHURCH STRAWBERRY FESTIVAL.
—Our readers will see by the advertisement in another column that the ladies of Knox's Church intend holding their annual festival on Dominion Day. The ladies intend to provide all the luxuries of the season, and the expectation of sharing in these, added to the pleasure of listening to the sweet strains of Vale's Band, cannot fail to attract a very large attendance at this, the annual Festival of Knox Church.

ST. JOSEPH'S HOSPITAL PIC-NIC.—The annual pic-nic, in aid of the aged and orphans in St. Joseph's Hospital, is to be held this year on the 24th instant. It is scarcely necessary to do more than refer to the advertisement in another column to secure a large attendance. This pic-nic has become an established fact, is well patronized every year, and we doubt not will be as great a success this season as in former years. It will be held as last year, in the Exhibition Grounds.

PRESTON MINERAL BATHS.—We direct attention to the advertisement about these Baths. Mr. Kress the proprietor has this season thoroughly refitted and refurnished the Bath rooms and the Hotel, so that visitors and guests may be assured that everything possible has been done for their convenience and comfort. These Baths are now a popular resort during the summer, and this year, we expect they will be more largely patronized than ever. Parties from Guelph can go to Preston and back on the railway at reduced rates.

ORGANS FOR BRITAIN.—Messrs. Wm. Bell & Co. are at present shipping twelve of their first-class organs for Britain. A portion of them go to Dundee, having been ordered by dealers there, and the rest are destined for different parts of England. Mr. Robt. Bell intends leaving in a couple of weeks for the old country, where he will establish agencies for the sale of their instruments, and thus initiate what we hope and believe will be a long and profitable trade between Guelph and the leading cities in Britain. The organs which have already been sent home by the Messrs. Bell have given the highest satisfaction, and we feel sure they have only to be known and tested to be appreciated. We wish them all success in their new venture, and hope that their exportation of organs to the old country will soon become as common as that of our Guelph Sewing Machines.

Local and Other Items.

CAPTAIN JACK.—General Davis interrogated Captain Jack on Sunday. He tried to implicate Allen David, a Klamath Chief, and denied being present when General Canby was killed, though he admitted having ordered it to be done.

FIRE IN BRANTFORD.—The southern wing of the Victoria Foundry, owned and occupied by Wm. Beck, was discovered to be on fire at about three o'clock on Wednesday morning. The loss is about \$7,000—partially insured.

HALTOS.—A correspondent to the Hamilton Times, writes that he has just returned from a drive into the heart of the fine old densely settled county of Halton, so full of material wealth and stirring political associations. The growing crops, owing to the cold, protracted spring, followed by the recent dry, hot weather, are not quite so promising as could be wished, but favorable weather may yet do much to dispel gloomy anticipations.

WON'T IT BE EMBARRASSING.—A news item has been going the rounds for some length of time to the effect that the Shah of Persia intends visiting Queen Victoria this summer, accompanied by three wives, and that he has set apart \$5,000,000 sterling to pay the expenses of his trip. We should think it will be rather embarrassing to our good Queen to entertain these ladies—all the wives of one man—but probably, some allowance will be made on the score of his being the ruler of his country. But what is the sum of \$5,000,000 at the expense of a summer trip. Won't that pay his way handsomely and hide a multitude of sins!

THE NEW GRAND PACIFIC HOTEL, in Chicago, hung, to quote a Chicago journal's characteristic remark, its hospitable doors wide open to Chicago, and the world on the 2nd inst. This structure covers a block of ground 335 feet long in front and rear, and about 180 feet in length on the sides. The building fronts on Jackson street, between Clark and La Salle. The first story floors are largely of iron. All above is Ohio sandstone. The Chicago Evening Post devotes four columns to a description of the outside and inside of the hotel. The furniture has all been manufactured from special designs, massive and solid and ornate at once. The stairways are of Italian marble, nine and a half feet in width. There are four hundred and sixty apartments in the hotel, which has cost about one million dollars, exclusive of furniture and other equipments.

THE GRUB.—The Seaforth Expositor says that considerable alarm is occasioned among the farming community in this county by the ravages of a grub which has attacked the spring crops. The grub is about an inch long, and of a greyish green color. It attacks the roots and stems of the young plant, cutting them off and leaving great patches, and sometimes whole fields, entirely bare of vegetation. In McKillop we hear of fields so badly ravaged by this destructive worm that they will have to be plowed up in Trickettsburgh, Stanley and other townships of the county the pest is also at work, but not, we believe, with such disastrous results, so far, as in McKillop. Many farmers are sowing salt as a remedy and we are informed, in many cases with satisfactory results. In some quarters this same grub has made its appearance in former years, but never in such large numbers and with such destructive results as at present.

A ROYAL RAILWAY TRAIN.—The Russian Academy Gazette describes the train in which the Shah of Persia was to perform the journey to St. Petersburg. It will be composed it says of 12 carriages, of which one is for the luggage and another for the cooking, a third serves as *salva manger*. The large Imperial carriage in which his Persian Majesty travels along with his grand vizier will be the seventh from the engine. This special carriage, occupied by the Shah's Minister of the Household and the three Princes. The Ministers' wagon in front of this one is destined for the Court of Russia, the Shah's secretary, the Minister of Public Works, the Minister of Foreign Affairs, the Grand Master of the Ceremonies, another secretary and a Grand Chamberlain. Behind the Shah's carriage is that destined for the aide-de-camp, and the Governor of every Province traversed by the train. There comes a large family carriage of eight compartments, for the Shah's doctor and a number of court dignitaries. The last two carriages are for servants and attendants.

Assembly Canadian Presbyterian Church.
June 10.
The Assembly resumed consideration of the Union question. Dr. Topp moved the adoption of the deliverance of the committee, which was carried.

Rev. Dr. Topp then read the action of the Synod of the Presbyterian Church of Canada in connection with the Church of Scotland, and the motion adopted by the Joint Committee, which was as follows:—"That this Committee record its satisfaction with the proposed arrangement of the Synod of the Presbyterian Church of Canada in connection with the Church of Scotland." He moved the adoption of this deliverance.

The motion was carried by a large majority. It was agreed to hold the next Assembly at Ottawa on the first Tuesday in June.

Professor Cavan was appointed Principal of Knox College.

The report of the Committee appointed to consider the report of the Home Mission Committee was read and adopted.

In the evening the delegates from sister churches addressed the Assembly. They were Rev. Mr. McLeod, from the English Presbyterian Church, Drs. Eadie and Calderwood, from Scotland, Rev. Messrs. James and McNaughton, from the American Presbyterian Church, and Rev. Messrs. Patterson and Bennett from the Churches of the Lower Provinces.

Arrival of Sir Geo. E. Cartier's Remains in Montreal.

Preparations for the Funeral.
The steamer *Druid*, with the remains of Sir Geo. Cartier arrived at Montreal on Wednesday morning.

After having the *Druid* securely moored, a gangway was hastily laid, while the military guard on board of B. Battery fled on shore and formed a hollow square around the hearse. The seamen of the *Druid* entered the chapel *ardente*, and a few minutes after wards they re-appeared bearing all that was mortal of Sir Geo. Cartier. As they slowly crossed to the wharf over the deck, the bank struck up the dead march in Saul, and the seamen bore the coffin, a splendid one, but evidently of unusual weight, to the hearse. The guard, in command of Col. Strange, reversed arms, and the procession was immediately formed.

The procession halted opposite the main entrance to the Court House. As the coffin was taken from the hearse, the escort detachment of B. Battery saluted, and, reversing arms, they followed in a Dead March Procession the coffin as it was borne upstairs.

At the entrance door, Sheriff Leblanc received the cortege, and the next minute the coffin was carried up the intricate stairway, along the corridors, into the advocates room, and placed on the catafalque. The latter was surrounded with all the altar paraphernalia in the cathedral. The clergy then conducted the church services appropriate to the occasion. As soon as the coffin, upon which were immortelles, &c., had been ceremoniously deposited to lie in state, the immortelles through seeking admission at the doors of the building was allowed to enter.

It seems that but few societies and public bodies will take part in the obsequies. The Montreal Roman Catholic Bishop, Bourget, as head of the priest party, will render the deceased what is due, but nothing more. Yesterday Sheriff Leblanc waited on the Bishop and requested permission to allow of the cathedral organ being used in the funeral service. The request was refused. The playing of the organ at a funeral service is an honour which is only accorded as a special benediction at the hands of the Bishop. The reason of the Bishop's refusal is generally attributed to the late dispute between the Bishop and the Seminary, the latter opposing the Bishop's creating new parishes by subdividing the existing limits in this diocese, which was carried to Rome, Cartier was strongly opposed to the Bishop and favoured the Seminary. The latter testify their regard by paying their own expenses in connection with the funeral, while the Bishop carries his antagonism to the bitter end.

vast crowds viewed the coffin of Sir George this afternoon, and it is estimated that at six p. m. 3,000 had satisfied their curiosity. The coffin will be opened this evening, when it will be decided whether the remains are in a fit state to be exposed to view.

The following are the pall-bearers—Lieutenant-Governor Caron of Quebec, Lieutenant-Governor Howland, of Ontario, Judge Palette of Three Rivers, and Sicoete of St. Hyacinthe, Hon. Letellier St. Just, and Hon. Mr. Campbell. Mr. Duvrney, of *La Motte*, is to be grand marshal of the procession, and will be assisted by the Hon. T. Ryan, Mr. L. Leaubien, M. P., Col. A. Stephens, and others.

General Sessions.
June 11.
CAMPBELL vs. ARMS & WORSWICK.—This was an Interpleader case, in which Mr. Christopher Campbell of Guelph was plaintiff, and Messrs. Arms & Worswick of Guelph were defendants. The property in dispute was a turning lathe valued at \$374; which the defendants had seized under an execution against Albert J. Doty, alleging that it was his property. The plaintiff set up that the lathe belonged to him, having purchased it with other machinery from Mr. Joseph Hirsch, who had acquired it from Doty. It appeared that Doty and Hirsch contemplated entering into partnership in the manufacture of iron axle-trees in Guelph, and that part of the agreement was that Doty was to put in the machinery and the lathe in dispute was put in by Doty accordingly. Owing to Doty's inability to furnish means to purchase machinery, Hirsch became responsible for a considerable sum for this purpose, and he alleged that finally Doty sold to him all his interest in the tools including the lathe in question, in consideration of Hirsch paying certain private debts of Doty's. Doty denied this, and after addresses of counsel and a lucid charge from the Judge, the Jury retired and after a short absence returned with a verdict for the plaintiff. Mr. Guthrie for the plaintiff, Hon. M. Cameron and Mr. Lizon for the defendants.

BIRMINGHAM vs. CARROLL.—Undeclared action. Verdict for plaintiff. Mr. J. Watson Hall for plaintiff.
June 12.
QUINT vs. SMITH.—This action was brought to recover the value of a mare killed under the following circumstances: Plaintiff had a mare of one Mulloy at pasture near Arthur. Defendant, who also had a horse at pasture in plaintiff's field, went with number of men and boys to catch him. Defendant drove the horses into a slashing which had been burned. The horses tried to escape, and the mare ran against a root, which ran into her and killed her. The plaintiff then was sued by Mulloy, settled the suit, and sued the defendant. Mr. M. C. Cameron and Mr. Macdonald for plaintiff. Mr. Guthrie for defendant. Verdict not yet rendered.

LEGISLATION FOR IRELAND.—In the House of Lords on Monday, Earl Russell introduced a bill for the better government of Ireland, which abolishes the office of Lord Lieutenant, and provides that the voice of eight jurors out of twelve will suffice for a verdict. The object of the measure is to restrict the power of the priesthood and secure the conviction of criminals.

THIS MORNING'S DESPATCHES

Probabilities.
The Japanese Minister.
Elation over the New Trial to Stokes.

No Asiatic Cholera.
Emigration of Monks.
Washington, June 11, midnight.—Probabilities for the middle States rising barometer. Light and fresh northwesterly and northeasterly winds, and clear and partly cloudy weather. From the Ohio valley to the lakes, light and fresh north-easterly and south-easterly winds and generally clear weather.

New York, June 10.—Arinori Mori, the Japanese Minister to the United States, according to a letter in the *Tribune*, from Yeddo, rests under grave accusations preferred by his own countrymen. His management of the funds entrusted to his care is said to have been suspiciously loose, and his conduct towards his own Government is characterized as perverse willfulness.

Fully fifteen thousand persons have visited Stokes since he has been confined in the tombs. The occupants of murderers row continue much elated over the granting of a new trial to Stokes.

A Memphis special says many physicians assert that we have not had a single case of genuine Asiatic cholera. Three cases put down in the bills as cholera are said to have been the result of hard drinking.

London, June 11.—A despatch from Rome to the *News* says many monks belonging to the monasteries which are to be suppressed will go to Bolivia and Chili.

Horrible Affair in Hamilton.
A Man Splits his Wife's head and Kills his two Children.
(Special to *The Daily Mercury*.)
Hamilton, June 12th.—A man named Fields attempted to split open the head of his wife at 7 o'clock this morning with an axe. She escaped out of the house but not before receiving a cut which will probably prove fatal. While she was out he deliberately cut the throats of his two children, ages from three to five years. He is now under arrest. Great excitement prevails. The dreadful tragedy has cast a gloom over the whole city. The man has been drinking hard for some time past which is supposed to have caused temporary derangement.

Latest from Quebec.
(Special to *The Evening Mercury*.)
Quebec, June 12.—The steamship Northern of the new Mitchell line of Gaspe steamers, which left for the lower ports last evening, ran on a shoal of rocks near the light-house at St. Lawrence Point, Island of Orleans, about midnight, and it is feared will be a total wreck as the bottom has been driven out of her. The passengers were all saved and returned to town this morning. They are destitute of clothing and are being assisted. The night was clear and fine. The Albatross passing up at 4 o'clock this morning was the first report of the accident.

The Execution of Carruthers.
Yesterday gave an account of the execution of James Carruthers at Barrie for the murder of his wife in December last. During his incarceration the prisoner's stoical demeanour at first assumed passed away, and he became contrite and calm under the unremitting ministrations of Rev. Mr. Morgan, Episcopal minister, and others. He repeatedly attributed his crime to drink alone, and was very earnest in admonishing the other prisoners in the goal to avoid that course. With regard to the homicide Carruthers confessed his guilt, but said that he had no recollection of much that was deposed by the witnesses at the trial. He repudiated the plea of insanity, and the evidence ascribing jealousy as the motive for the deed, which, he said, set up without his consent, and caused him great grief. For several days previous to his execution he was severely ill, and it was suspected that he contemplated suicide by starving, but his health had fully returned by the morning of the fatal day.

BASE BALL NOTES.
We understand the Champion nine intend taking a tour through Ontario next month.
They go to Toronto on Saturday, the 21st inst., to play with the Dauntless Club of that city.
A match has also been arranged with the Bervie club, (W. G. & B. R.) to take place on Thursday, the 19th inst.
No game on the Fair ground to-night. The ground has been lent.
The Dauntless, of Toronto, and the Silver Star, of Port Hope, play this afternoon.
The fourth game of the championship series, between the Boston and Mutuals, took place on the Union Grounds, Brooklyn, on Tuesday, and resulted in the defeat of the Mutuals by the following score:—
Boston . . . 3 0 1 2 0 0 4 8
Mutuals . . . 2 2 1 1 0 0 0 7
LACROSSE.—A game of lacrosse was played on the Maple Leaf base ball ground on the 25th inst., between the Elora and Brampton clubs.

Good Words.—Anderson has sent us the June number of this magazine. "Good words are worth much and cost little." For sale at Anderson's Bookstore.
