# DOMINION AND THE PROVINCES

(Continued From Page 1)

good reason to believe that some members of the McBride government were participants."

"Where did the money go to?" from R. G. Macpherson.

The minister from B. C. went on to say that there had been a parliamentary investigation in the province, and two reports were made. True the majority report whitewashed the government, but the minority report was a plain and the departure of Mr. Green from public life had followed.

The minister once more referred to the Victoria speculators as "a small band of speculators—male and female"

William Alfred Galliher cast an additional glare of illumination upon these matters. Then Hon. G. Eulas Foster put what he took to be the position of some of the provinces, in regard to federal relationship, into expressive words. He said "servile obedience and alliance" and "subjugated obdience."

The minister of justice ended this debate, and those who were most glad to see the end of it were those who had begun it.

Mr. Aylesworth disposed of the Borden contention as ridiculous, and of the Foster speech as suitable for a B. C. stump.

Mr. McIntyre of Strathcona has given notice of a motion restraining all railway passenger rates to three cents per mile "unless after full investigation special permission to do so is given by the Railway commission.

## SCARLET MYSTERIES SPEEDY ACTORS'

### Train Was Late and They Made Good Speedily

Although the trai n did not arrive in Calgary till 8.15 last evening with the members of the Scarlet Mysteries, they were able to start their first performance on time thanks to good work by the members of the company, who had to put in overtime getting scenery and baggage fixed up in time for their performance. This is a record.

An enthusiastic audience assembled last night at the Lyric Theatre to hear the Scarlet Mysteries and all present spent an enjoyable two hours and a half, their delight being evinced by frequent encores and hearty laughter.

Their entertainment is clean, crisp and clever, their humors bright and their powers of mimicry of a high order. The "Sobbing" quartette was a dish of undiluted fun. The Soldiers Farewell which was given as an encore was superb, in fact all the concerted numbers were effquisitely rendered. The pianist is a marvel and a master of his art. The Jester was in full evidence and his Scotch song creared roars of laughter and the audience was not satisfied until he reappeared.

The lecture on Early Art by the Art Humorist, followed by his lightning sketches are very clever and met with general approval, as did also the comicalities, especially the concluding number "Willies Whiskers." The joker in his funny sketches and funnyisms also contributed to the hilarity of the evening. In fact there is not a dull item on the program, and each and every member of the company do their work in a most finished and artistic manner.

Concord, N.H., Jan. 30—Secretary of the United States Treasury Shaw spove before the New Hampshire board of Trade here this evening on the subject, "A foreign market for American labor."

In the course of his speech he suggested that the United States establish bonded ports. He said on this point:

"Merchandise can now be produced from imported material in bonded factaries. it seems to be safe and wise to carry the logic of this provision one step further, and have bonded or free ports, Suppose, instead of a bonded factory we bond awell defined section of land containing if you please several thousand acres. Within this bonded territory all kinds of factories could be built and into this zone all kinds of raw material could be entered without the payment of duty, This port should, of course, contain no dwellings. I would allow free coal and every other element of manufacture, except labor, to be entered free. In other words, this free port should be a great consumer of American labor, the product of which, under the most encouraging conditions, should be for import and export only. And if it were removed from the port for the purpose of domestic consumption, it should pay the same duty as if imported from abroad. I do not see where the American people could be harmed by such a policy and it would result in furnishing employment to those who choose to live beneath our flag, consume our products and work at the American scale of wages.

All New England would be benefitted by such a port somewhere on the North Atlantic coast. A similar port should be established in the vicinity of Norfolk and another on the gulf. It will take time to develop the thought, but it is in absolute harmony with the present bonded warehouse, bonded factory and drawback policy, and we have the example in the free ports in Germany."
