TORONTO SWELTERING

Toronto, July 10.—Although promises of thunderstorms and cooler weather keep up hopes, Toronto is still sweltering. Temperatures range about the same as yesterday, and the packing of industry and business caused thereby was more pronounced today.

At 3 a.m. the thermometer stood 80, compared with 79 yesterday.

Of the 125 deaths recorded in the last seven days, 50 were those of children under two years.

Who broke up so this past series, need Broncho twirlers, for it to Victoria at once, for club under an open sky.

SASKATCHEWAN FIGHT WILL CLOSE AT THE POLLS TODAY

Little Betting on Vote Which Depends Largely on Foreign Vote and Reciprocity

Seats Contested by Leaders of Each Party Not Regarded as Very Safe

Regina, Sask., July 10.—Tomorrow will see the close of Saskatchewan's exciting election campaign.

Fifty-two out of the fifty-four ridings will vote tomorrow. Two, Athabasca and Cumberland, being deferred, in forty-seven constituencies there are straight party fights, with no third candidates to complicate matters.

In Vonda there is no Conservative candidate, although the Conservatives think they have an independent, J. Wright. The Liberals claim Wright, if elected, support the government. There is a second independent in the field, a French-Canadian named P. Laroche. Outside of carrying the solid vote of the small French colony, he is not considered a serious contender.

A Galician Candidate. Vonda is almost entirely foreign, and no one would pretend to predict what might happen. In Arm River there is a three-cornered fight, with two Liberals in the field, George Scott, a cousin of the premier, and John Gibson. The Conservatives think their candidate, P. C. Whitlock, has a good chance of slipping in.

In Lloydminster there is a grain growers' candidate, A. S. Langton, in the field, as well as a straight Liberal and Conservative nominees. There is a strange situation in Canora, where a Galician, Mike Gabors, is running. There is a large Galician vote, and his presence in the field has upset calculations. Moose Jaw has a socialist candidate, who is not looked on as a factor.

Both sides tonight are predicting victory and claiming around 35 seats. As a matter of fact, neither side knows much about it. There is little betting. The result depends largely on two things—the foreign vote and the reciprocity sentiment.

Both sides have made a desperate fight for the foreign vote. The Scott government has held it in the past, and if it swings to the Conservatives, it will be a matter of fact, neither the premier nor the opposition leader are any too safe in Swift Current and South Qu'Appelle.

Both sides are making great efforts tonight to get in the vote tomorrow, and there promises to be a record vote, not only in Regina, but all over the country.

So keen and tense is the feeling that both sides are anticipating trouble, and possibly even riots.

CONTRACTORS WILL MAKE NO CONCESSIONS TO CARPENTERS

No advance will be made by the contractors towards a settlement of the trouble experienced with the carpenters, according to a statement made at the close of a meeting of the builders' exchange last night, when it was stated that a resolution had been passed declaring the intention of the exchange to hold firmly by the agreement of last year.

The contractors will therefore refuse to delete the word "competent" from the agreement, and will refuse the increase of five cents asked for.

The offer of the stonecutters to concede to the stonemasons the cutting of uncut rubble, leaving the question of cutting shoddy open, was also discussed and approved, the statement being made that this was essentially what the stonemasons claimed in the first place.

INSURANCE RATES MAY BE REDUCED AS CITY HAS EXCELLENT RECORD

Total Fire Loss During Past Years from Fires Less Than \$20,000

Modern Apparatus and Eternal Vigilance Makes Best Canadian Record

On Account of This Showing Board of Trade Asks for Lower Rate

That so far as fire losses compared with fire risks are concerned, Calgary is the safest city in the Dominion of Canada, and the board of trade, when a committee appointed for the purpose reported that it had applied to the board of fire underwriters of Western Canada for a ten per cent. reduction in the insurance rates. A feature of the report was the appearance before the board of Fire Chief Smart, who recited statistics showing that Calgary has a marvelous record in avoiding damaging fires.

The chief pointed out that the total fire loss during the past year has been under \$20,000, a remarkable record in itself for a city of this size. But when it is recalled that in the buildings where these fires occurred, a total of more than \$3,000,000 was jeopardized, it is a record of the prompt and efficient work of the department, the record is unique.

The insurance rates in this city now range from \$100 to \$150 to \$160 to \$170, which is said to be the lowest rates in effect in a city of Calgary's size in the Dominion.

As a matter of fact, neither the premier nor the opposition leader are any too safe in Swift Current and South Qu'Appelle.

Both sides are making great efforts tonight to get in the vote tomorrow, and there promises to be a record vote, not only in Regina, but all over the country.

NORMAL SCHOOL TO COST \$100,000 FOR CAMROSE TOWN

(Special to Morning Albertan)

Camrose, July 10.—Hon. J. R. Boyle was here all day Tuesday and before his departure announced the location of a new Provincial Normal school at Camrose.

Several desirable sites are under discussion and a choice will be made so that work on the foundations may begin this fall.

The school which will cost about a hundred thousand dollars, will be an asset to the town in conjunction with the Camrose Lutheran college, the building for which will be completed this fall.

BUILDERS OF THE CITY BEAUTIFUL TO MEET IN WINNIPEG

Local Planning Commission and Board of Trade Invited to Participate

Eight Hundred Invitations Have Been Sent Out; Duke of Connaught to Talk

Beginning on Monday next, and for the two days following, Winnipeg will be the scene of a gathering unique in the history of Canadian civic life. It will be the first time that a gathering of this kind has been held in this city, even though it contained all the concessions originally demanded by the Stone Masons.

The local branch of the Bricklayers and Stone Masons International Union turned down the plan of proposed settlement offered by the Association of North American Stonecutters.

The rejection of the proposal to end the deadlock was contained in the following resolution adopted by the association:

"Gentlemen: Your statement as to the deadlock of your body with regard to the proposed settlement, as outlined by your committee of the 5th instant, and confirmed by your union on the 6th instant, at hand, in reply to us by wire is as follows: 'The executive board refuses to make our classification of stone masonry an open one with any trade. No compromise. Stand firm.'"

"I have sent out individual invitation to over 800 people," the Winnipeg section of the fair would do well to look in on this convention, of which full particulars may be secured from Secretary Lemon of the city planning commission, city hall.

As Mayor Mitchell, Secretary Miller of the industrial bureau, and several others are to be in Winnipeg next week, an effort is being made to induce them to represent Calgary and the city planning commission at this gathering. Efforts will be made to get Mr. J. H. Gordon, vice-president of the commission, to attend it.

QUEBEC GETS NO RELIEF FROM HEAT WAVE

Quebec, July 10.—Quebec still has no relief from the warm wave. As a matter of fact, today was the warmest of the spell, the mercury registering 93-94 at 3 p.m., while the humidity was 78 degrees.

The wave has now lasted a week, and it has caused great suffering. For a time this evening it looked as if there would be a smart thunder shower, but while there was vivid lightning, no rain has fallen.
