SOCIALIST MEETING.

A meeting was held at Queen's Park last evening by the Socialist Labor Party, in the interests of Mr. Fred J. Darch, the Socialist candidate in the coming bye-election. The chair was occupied by Mr. Zacariah Pickworth, and among the speakers were Messrs. Fred Hazelgrove, H. B. Ashplant, Fred Appleton and Darch. The objects of the party were outlined as the "Emancipation of the workers from existing conditions brought about by capitalist administration of public affairs." The various speakers attacked Col. Leys as an enemy of the workingman. In dealing with the question as to why the Socialists had a candidate in the field, Mr. Ashplant referred to the truism that "if you want" in dealing with the results of the party defends the field, Mr. Ashplant referred to the truism that "if you want" cided increase in the attendance, and American flags were very liberally displayed.

The contrast in the style of the two crews, whom everybody expected to see fight out in the final heats, was more marked than ever. There was only five minutes 'difference between the two races, and no sooner had Umpire Willan sent the Leanders and Belgians off, than Umpire Pitman's launch took its place to start the Americans and the Thames crew. There was a capital start, and the Pennsylvanians had three-fourths of a length lead before the top of the island was reached. They rowed eleven strokes in the first quarter, 22 in the first half, and 41 during the first minute. The Americans went away steadily and easily from that point, and droppe

One of the best of the recitals yet given by pupils of the Conservatory of Music was that held in Conservatory Hall last night. The artist of the evening was Miss Agnes M. According to weather bureau officials the figures indicate that the weather situation is practically unchanged in the country east of the Rocky Mountains. There is slight abatement of the heat in the eastern part of this extensive area, but it is warmer on the western side of it. The comparatively low temperature in New York this morning was due to a local shower, but the weather forecaster predicts that there will be a speedy return to the heat conditions of the past few days.

LOCKED IN ICE BOX.

Hamilton, Ont., July 4.—Thomas Powers, proprietor of the Mansion Hotel, accidentally locked himself in a big refrigerator in the cellar of his hotel and nearly froze to death. The refrigerator was a new one, holding nearly a ton of ice, and he went inside to see if the door fitted tightly, and a spring lock fastened it. He kicked on the door for a long time, but no one heard him. Finally he got an oak strip in front of the ice box and forced the chor. He then fell in a faint and did not recover for several hours. LOCKED IN ICE BOX.
