

Miners Riot At Wardner

Armed Mob of One Thousand Men Arrive in Nine Coaches to Drive Out Non-Union Workmen.

Buildings Found Deserted But With Three Thousand Pounds of Giant Powder They Are Blown Into Smithereens.

Property Worth More Than Quarter Million Dollars Utterly Destroyed—Rioters Then Return on Their Seized Passenger Train.

Mob Fire a Thousand Shots at Supposed Fox But Make One of Their Own Pickets the Sole Victim—Telegraph Wires Cut.

Wardner, Idaho, April 29.—Wardner was today the scene of the worst riot since the deadly labor strike of 1892. One man is dead, another thought to be mortally wounded and property valued at \$250,000 has been destroyed by giant powder and fire. The damage was done by union miners and sympathizers from Canyon Creek, about twenty miles from Wardner.

This morning a mob of from 900 to 1,000 men, all of them armed and many masked, seized a train at Burke this side of Canyon Creek. There were nine box cars and a passenger coach and they were packed with the mob. The visitors brought with them 3,000 pounds of giant powder.

After a parley of two hours 140 masked men, armed with Winchester, the Burke men in the lead and those from Wardner following, started with yells for the Bunker Hill and Sullivan mill and other buildings, a third of a mile from the depot. They sent pickets ahead and one of the pickets fired a shot as a signal that the mill was abandoned. This was misunderstood by the main body of the mob, who imagined that non-union miners in the mills had opened fire on them, and they began to fire upon their pickets.

About 1,000 shots were thus exchanged between the rioters and their pickets, and Jack Smith, one of the pickets, formerly of British Columbia, and a noted figure in drill contests, was shot dead.

By this time the strikers had taken possession of the Bunker Hill and Sullivan mill, which they found deserted, the manager having directed his employees not to risk their lives by battling with the mob. Powder in sixty pound boxes was carried from the depot to the mill. The heaviest charge was placed under the brick office buildings. Other charges were placed around the mill.

Then the boarding house, a frame structure, was burned, a furnace and the charges were lighted, and the strikers carrying the dead body of the picket, retired to a safe distance.

At 2:36 p.m. the first blast went off. It shook the ground for miles and buildings in Wardner, two miles away, trembled. At intervals of about sixty seconds four other charges went off, the fifth being the largest, and completely demolishing the mill.

The loss to the Bunker Hill and Sullivan mines is estimated at from \$250,000 to \$300,000.

In a few minutes the strikers went back to the station, the whistle was blown for stragglers, and the mob climbed on board at 3 p.m., just three hours after its arrival, the train started for Canyon Creek.

This morning the 200 non-union miners at the Bunker Hill and Sullivan mill had warning of the coming of the mob and left the mine and took to the hills.

Portland, O. R., April 29.—President A. L. Mohler of the O. R. & N. Co., at 3:30 this afternoon telegraphed officials in this city from Wardner, Idaho, that the striking miners had fired the Bunker Hill and Sullivan mine and that it was burning. He reported that the mine was loaded with dynamite and the entire property would be a total loss.

The striking miners were also reported to be in possession of the Northern Pacific and Oregon Railway & Navigation trains and to have complete control of the situation.

President Mohler has notified the governor of the situation and state officers have been dispatched to the scene of the trouble. The governor promised to do everything in his power to preserve order and prevent bloodshed. Since he received the strikers have cut the wire and telegraphic communication with Wardner is now cut off.

FATAL TORPEDO EXPERIMENT.

Explosion of Powder Press Kills Four Men and Severely Injures Three.

Woodbury, N. J., April 29.—A powder press at Dupont's Powder Works at Camden, N. J., a few miles from here, exploded this afternoon, killing four men and injuring three others.

The explosion occurred during an experiment with a government grant torpedo.

BOLD ROBBERY FROM A CANNERY.

New Nets Taken Worth \$1,200—Influence for Eight Hour Law.

From Our Own Correspondent.
Malcolm & Windsor offer a reward of \$100 for the apprehension of the thieves and recovery of the property. The steamer Delta, which had just arrived with lumber, was chartered by Mr. Windsor and with police constable Alex. Main on board went down toward Point Roberts in order to intercept the thieves should they attempt to pass that way. The police are searching along the North Arm, and watching the main trunk roads.

The Eight-Hour Law.

Mr. Tisdall and Mr. McPherson, M. P.'s, have promised the Trades and Labor Council to urge the government to give the eight hour law respecting workmen in metalliferous mines a fair trial. The council have passed another resolution strongly favoring the striking tailors and offering financial assistance. The twenty-three strikers declare that they are getting all the financial assistance needed from their own organization and feel confident that the bosses will soon give in.

Funds for Appeal Court.

The Trades and Labor Council are writing to the heads of the several unions in an attempt to raise \$400 to enable Mr. Martin to carry the case of Wood v. the O. P. R. to appeal. It will be remembered the jury decided in favor of Wood but Mr. Justice Irving would not allow damages, the case being tried under common law instead of the Masters and Servants act. The common law requires that the company should know of either party. A private telegram goes further than this, stating in effect that the government are anxious to have no more strikes in the matter and will attempt at a pacific solution of the difficulty.

Deadman's Island.

A telegram has been received by the Mayor from Ottawa stating in effect that the government will take any action agreeable to both parties interested tending to an amicable settlement of the question without prejudice to the claim of either party. A private telegram goes further than this, stating in effect that the government are anxious to have no more strikes in the matter and will attempt at a pacific solution of the difficulty.

COL. SHERWOOD SHOOTS A CHIEF.

Commissioner of Dominion Police Makes Indians Respect the Law.

Special to the Colonist.
Montreal, May 1.—(Special)—Lieut. Col. A. P. Sherwood, commissioner of Dominion police, left Ottawa last night with a small force of men and went by train to Oatman, whence they took a steamer to the St. Regis Indian reserve, arriving there this morning. Their object was to arrest four Indian chiefs, who opposed the government's proposal to elect chiefs every three years.

Last fall when the polling was taking place these chiefs broke up the booths, and have been positive outlaws since. The arrests were made and the Indians taken to the agency. Here they acted ugly and tried to escape.

Col. Sherwood drew a revolver and shot one chief, Jake Ice, dead. Two other Indians were wounded in the melee. Some of the constables were hurt. The other Indians were being taken to Beauharnois goal today.

Take Possession of Deadman's Island at Instance of Mr. Cotton.

From Our Own Correspondent.
Vancouver, May 1.—Following the announcement on Sunday that the chief commissioner of lands and works, Mr. F. C. Cotton, had decided that Deadman's island does not belong to Vancouver city or to the Dominion of Canada, but to the Province of British Columbia, Mr. Skinner, timber commissioner, was instructed by wire to-day to take possession of the island, forcibly if need be. This was done to-day, Mr. Skinner calling to his aid a special constable. The city guard also remains on the island.

Mr. Enidgate says: "I heard from Attorney-General Martin to-day. He is still my counsel." As Mr. Martin has placed himself on record as fighting for Dominion ownership in Mr. Ludgate's interests it is freely stated on the streets here that he should hand in his resignation at once as legal adviser to the provincial government. Mr. Cotton and Mr. Martin are hopelessly at variance.

The effect of the action taken by the provincial government is to throw the burden of proof upon the Dominion, the federal government being at once an alleged claimant and accuser. It is not difficult to account for the cause why the title of the province should not be recognized.

The following is the announcement made in the News-Advertiser, Mr. Cotton's paper:

It is understood that, as a result of the investigation in regard to the lands and works department, the chief commissioner has reported that he considers that Deadman's island, Stanley park and the Point Grey reserve belong to the provincial government. In an interview to-day, Premier Selin stated that the government had no objection to the province taking possession of the island, and that steps would be taken to protect the province's interest against the Dominion of Canada or other parties. This seems to settle the contention of either the Vancouver corporation or Mr. Ludgate. Anyhow, the island taken by the province appears likely to lead to substantial benefit to the province, through the investigation of the island.

"Hon. Robert Bevan, who was chief commissioner for several years, stated to-day that there was no question but that both the park and island belong to the province."

HUSTLED OVER THE BORDER.

Highwayman Delivered Over to Boundary Creek Authorities Without Any Red Tape.

Grand Forks, April 21.—(Special.)—If impending legal proceedings are successful the United States government will be asked to demand of the Canadian authorities the surrender of Mark Sutherland now in jail here awaiting trial for highway robbery at McCall's camp in the Boundary district.

The prisoner protests his innocence and says that as a result of the Canadian and American officers he was escorted from American territory to British Columbia, where he surrendered without the formality of extradition proceedings. The issue involved is an interesting one and it is stated, has hitherto never been raised.

Sutherland and a friend named T. H. Frost according to the former's story were arrested late at night about a week ago at Camp Republic, Wash., and after an hour's delay was conducted by an armed posse to the international frontier and there delivered up to the American authorities. As soon as Sutherland was arrested the American posse proceeded to a rendezvous camp and awaited the arrival of a contingent of special constables from the United States. Fortunately no blood was shed as Sutherland's friends failed to overtake the prisoners.
