first train, which left shortly after 8 o'clock, carried 400 merrymakers, and the two later trains also accommodated large crowds. A delightful-walk of two miles through beautiful scenery brought the holiday-makers to the park—an ideal spot for a picnic, being a very pretty common surrounded by shade trees and pretty walks. The river too, attracted many to the quiet seclusion of its banks. The lengthy programme, consisting of 30 events, was carried through without a hitch, which speaks volumes for the energetic committee in charge. All the races were closely contested, and the baseball matches were eagerly watched by the friends of the rival nines. The weather was glorious, the sun shining brilliantly all day, and the City Band giving a splendid programme of popular airs, rendered the enjoyment complete. All the contesants fell, but the two leaders gallantly struggled to their feet and finished the race. The ladies did their share, fighting hard in all the contests open to them.
