Santa, physical wine we we will be a second to take place in Canadian Electrical News.

Three important scientific conventions are to take place in Canada during the ensuing four weeks. These are the annual conventions of the Canadian Electrical Association and of the Canadian Association of Stationary Engineers, to be held at Ottawa between the 17th and 27th of the present month, and of the American Street Railway Association in Montwert with were snap soods, same line. Just in the canadian Electrical News has just in the canadian Electrical News.

Engineer Keating reported yesterday in the for the thieves.

Engineer Keating reported yesterday in the canadian the current Issue day than least weak of sand in the of the last manhole south of Hanlan's crib, had been entirely removed by means of a sand pump and a great portion of the accumulation to the south of the same manhole was removed the Canadian Association of Stationary Engineers, to be held at Ottawa between the 17th and 27th of the present month, and of the American Street Railway Association in Montwerp snap soods, same line. Just in the Pipe.

Engineer Keating reported yesterday in the foot pipe, immediately to the north of the last manhole south of Hanlan's crib, had been entirely removed by means of a sand pump and a great portion of the accumulation to the south of the same manhole was removed the canadian Electrical News. These are the annual conventions of the Canadian Electrical News.

Engineer Keating reported yesterday, in the of Spadina-avenue was also entered by burglars one night last week. The intruders, however, got very little for the hote per portion to the south of the same manhole was removed the pipe by the divers about 120 feet, that it could not be moved any further by reason of its excessive burglars making their entry through the canadian Electrical News has just it was found. The provided the provided the police was also entered by burglars one night last week. The intruders, however, got very little for the police in the day bu two lengths of the 5-foot pipe in Blockhouse Bay, or about 114 feet of pipe, so as to enable the remainder of the sand to be pumped out. This work is being done, and will be pushed with

Washington, Sept. 17.—A review of European crop prospects presented in reports to the Agricultural Department, shows that the cereal output in Great Britain will be much below the average. Harvesting has been delayed in Switzerland, and the wheat crop will be under 5,000,000 bushels.

In France the wheat crop is excellent and will exceed 300,000,000 bushels. Wheat in Germany is expected to make a better showing than in 1894. In Austria the crop is somewhat less than in 1894, which was 146,000,000 bushels. In Roumania new wheat is of superior quality and a full crop has been raised.

Nenthle Greberts the Greeners of how the burglars accomplished their work. It was found that the men had first broken into the D., G. H. & M. section house, where they secured sledges and a truck. They then proceeded to the postoffice and gained admittance by cutting a panel out of the door. The safe was then loaded onto the truck and wheeled to the side street, where it was broken open. After rifiling the safe they stole a horse and buggy and got away.

Pember's Turkish Baths, 127 Yonge-st.

Naphtha Gusher in the Caucasus. St. Petersburg, Sept. 16.—A naptha spring has been opened at Grosni, in spring has been opened at Grosni, in the Terek province in the Caucasus which is throwing jets to a great-height and discharging thirty million poods of the fluid daily.
