Crop prospects in this vicinity are good to date. Much will depend, however, on the conditions in the Autumn, as many crops were late planted. Beans as an article of commercial value have not hitherto taken a very prominent place in our agriculture, but this year every one has his plot of beans. We are beginning to wonder who will make the money out of this crop, the producer or the speculator. There will be an opportunity for the authorities to control the marketing of this crop to the advantage of the producer and consumer alike.

American Red Cross Mission To Russia

American Red Cross Mission on the "Empress of Asia" en route to Russia. Dr. Frank Billings on left.

A DISTINGUISHED party of largest universities in the United States, but they did not hesitate a moment when the call reached them."

physicians, surgeons, bacteriologists, professors of food chemistry, sanitation experts and dentists, making up the first unit of the United States Red Cross mission to Russia, numbering twenty-nine in all, left Vancouver the other day on the "Empress of Asia," en route to the eastern front.

Lieut.-Col. Frank Billings, professor of medicine in the University of Chicago, is in charge of the party and is taking to Russia over $100,000 worth of medical supplies, surgical instruments, dressings, water sterilizers and other necessary articles, including vaccine for the prevention of typhoid, smallpox, cholera, diphtheria, bubonic plague, meningitis and other diseases. A heavy task lies before them in Russia, and they are going abundantly prepared to go immediately to work.

The mission is being sent out by the United States Government, and the United States Red Cross Society will see that they are kept fully supplied in order to meet all demands for alleviating the suffering among the Russian soldiers and people. The move has been gratefully welcomed by the present Russian Government as an expression of the friendship of the people of the United States for Russia.

During the past month the United States Red Cross has raised over $125,000, and, while the work has been already begun in France, Italy, Serbia and Belgium, the present is but the first of similar units to be sent to Russia. The present party will investigate and report on Russia's needs and upon this report the United States Red Cross headquarters will decide the equipment and numbers of subsequent units. Steps are now being taken to get together complete equipment even to motor ambulances.

Col. Billings and the other members of the mission are a sturdy and affable lot of men and are fitted out in uniforms very similar to those worn by the British. The colonel is exceedingly proud of his organization and the promptitude with which it was effected.

"Every man who was approached to go on this mission, Winslow of Yale and Whipple of Harvard, and all the others, at once offered their services," said Col. Billings. "They dropped their work right there and got ready in four days, leaving their families behind them, to undertake this work, which is going to be of such tremendous importance to the Russian nation and to the military in particular.

"These men are leaders in their professions and are the heads of the

Several of the party have already seen active service in the present war. Major M. Grow spent twenty months on the Russian Mazurian front, and he has received the Military Order of Saint George for services in the Russian campaign as well as [illegible] in other ways. Major (Dr.) H. McCarthy has been in France making a survey of the prison camps in that country before the break between Germany and the United States; while Colonel Billings has been in Russia several times.

Some of the members of the party took occasion to obtain several motion pictures of various points of interest, and, as they have already a large supply of film, they will be able to produce before the Russian people graphic pictures of interesting events and things on this continent.

Mr. G. M. Bosworth, Vice-President of the C. P. R., has received a letter of appreciation for the very many courtesies the delegation received en route to the Pacific Coast. It was sent at the instigation of Lt.-Col Billings. The names of the mission are as follows:

Thacher, lawyer, New York; Capt. J. W Andrews, auditor, St. Louis, Mo.; Major W. S Thayer, professor clinical medicine, John Hopkins University, Baltimore; Major D J. THRIFT IN FOREST FIRES

Last year 265 Canadian men, women children perished because of forest fires.

About six million dollars worth of property disappeared from the same cause.

The easiest and best-paying Thrift Campaign for 1917 is to keep the next five months clear of such needless sacrifices.

The neglected camp fire, the tossed-away match and cigarette, the burning of settlers' "slash" have heaped up our national account for wasted life and property.

This is the Programme

If you are a settler—Guard well your clearing fires.

If a hunter, fisherman, camper, prospector—Put that Camp Fire out before you leave it. Put it DEAD OUT. Try a couple of extra pails of water, or shovels of earth.

Never build a fire except in rocks, or gravel, or other safe spot. Keep your fire small. It cooks better and is safer.

Please do not throw away lighted tobacco or matches. It is the trick of the amateur. No veteran, no good citizen, fools with fire.

All the big Conflagrations have started with a wisp of flame. Your lighted match, your cigarette, your camp fire are exactly what is needed to ignite the fuse.
