My split second is perfect in its accuracy; it enables the time to be taken of each one-quarter of the mile as well as of the full mile or more. This repeated subdivision of time by the same instrument can only be accomplished by my Timer and by the highest priced of Foreign Chronograph Watches.

My fine tenth of a second timer I make for delicate scientific purposes. to order only, of two sizes, the one the size of the ordinary watch, the other the size of the marine chronometer.
