A NEW ENGLAND MAYOR .- The Worcester Chroside gives the following us a verbatim copy of a letter from a chief magistrate of a certain corporation : "Dear Sur-on Monday next I am to be made Jare, and shall be much obliged to you so if be as you will send me down by the coatch some provisions sutting for the occasion, and I am to ax my brother, the old Mare, and the rest of the Bench. I am, sur, etc." The above was answered by a wag, into whose bands it fell, as follows :-- "Sir-In obedience to your orders I have sent per coach two bushels of the best oats-and as you are to treat the old mare, have added more bran to make a mash."

Now AND THEN .- About twenty-five years ago the Rev. Dr. Lyman Beecher was the great champion of Protestantism in this part of the world. His denunciations of "Romanism" used to draw large houses. He went from door to door to request merchants not to give employment to Catholic laborers. It was rnmored that arms and pikes and ammunition were stowed away in the Catholic Church on Sycamore Street-then the only one in the city-and to complete his picture, he published a work in which he proved that the Catholics were leagued with Aus-tria to destroy the Union 111 Well, time has passed and Beecher's assertions are known for what they are worth. His war with the Catholics has ended in his own defeat. He has no memorial of his intolerant character but the poor remains, mental and phycal, of Lane Seminary. And as if time wished to give bia the lie with a special emphasis, instead of Catholics being leagued to dissolve the Union or destroy the Constitution, Beecher's own countrymen and next neighbours are the persons now most prominent in this treasonable work .- Cincinnati Catholic Telegraph.

LATEST FROM AMERICA-NIAGARA FALLS.-BATRUM has bought up Blondin, ropes and all, and takes him to Europe to show him the ropes there, and to let him wander upon foreign strands (as the poet says) till he gets a good balance at his banker's, and of course a man who can keep his bulance anywhere will have no difficulty in doing that. Blondin's last tight-rope feat may be new to you. He had a catgut rope, and made of second hand fiddle-strings from the great Handel festival, and they strained the rope so tight that the breeze played a tune upon it. Something like a stretcher this, you will say. Blon-dia undertook to walk to the middle of this cord and with a horsehair bow-a very long bow, as you may suppose - to perform a concerto a la Paganini on one suppose to perform a concerto the rangement on one string. The vibration nearly cost the intropid fellow his life, for just as he was bowing his foot slipped, but with great presence of mind he managed to fall in a sitting position. The people rout the air with their acclamations. Blondin merely rent his trowsers, and with great tact and delicacy walked backwards to the Canada side, and retired for a fresh pair. Afterwards Blondin passed over on stilts, and upon this performance being encored, the daring arfist actually sharpened the feet of his stilts, thrust the stumps into two soda-water bottles, and thus shod, again traversed the cord ! During the last trip the excitement was awful. The sun broke out and sparkled on the bottles, and through a thousand telescopes was the steel-nerved hero seen to falter in his tread. Five to one that he tumbled went begging. Blandin took a pinch of soulf and the betting was even directly. Twenty thousand spectators held their breath till they were nearly sufficiented. A hurricane of shouts announced the brave man's success, and a sporting judge who had laid heavily against him fell into a fit. Most opportunely a medi-cal man from the South opened a vein with a sharp bowie-knife which he luckily had brought with him instead of his revolver, and the judge recovored, but will have to sell niggers to settle up. You may ex-pect to see Blondin in the big balloon. About an acre of its skin is yet to be varnished, so, to fill up time B, will go into severe training for his Euro-

pean performances -say about an hour's brisk walktelegraph wire our times a day.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, dis-ordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases ; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination ; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause. One quarter of all our people are scrofulous;

their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and in-vigorate it hy healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this overy where prevailing and fatal malady. It is com-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affecwhich arise from it, such as En and SKIN DISKASES, ST. ANTRONY'S FIRE, ROSE, OF ERWHPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TPITER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MEBCURIAL DIS-PASES, DROPSY, DYSPREPSIA, DEBILITY, and, indeed, all Complaints Arthing FROM VITA-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

DR. WISTAR'S BALSAM OF WILD CHERRY

The editor of the ' Flag of Our Union' says in his paper of July 17, 1858 :---" The memory of Dr. Wistar is embalined in the hearts of thousands who have experienced entire cure from Coughs, Colds, Consumption and Pulmonary Discase generally by the use of his Balsam. The invalid need not fear to give this preparation a careful trial, as we speak from experience. More than ten years since the editor of this paper tested its excellence by individual trial in his family, with the most surprising results, as a curative for pulmonary disease "

[CERTIFICATE FROM L. J. RACINE, ESQ., OF THE MINERVA.]

MONTREAL, L. C., Oct. 20, 1858.

S W. Fowle & Co., Boston, --Gentlemen :- Having experienced the most gratilying results from the use of Dr. Wistar's Balsam of Will Cherry. I am induced to express the great confidence which I have in its efficacy. For nine months I was most cruelly afflicted with a severe and obstinate cough, accompanied with acute pain in the side, which did not leave me, summer or winter. In October the symptoms increased alarmingly, and so reduced was I that I could walk but a few steps without resting to recover from the pain and fatigue which so slight an exertion occasioned. At this juncture I commenced taking the Balsam, from which I found immediate relief, and after having used four hattles I was completely restored to health. I have also used the Balsam in my family and administered it to my children with the happiest results. I am sure that such Canadians as use the Balsam can but speak in its favor. It is a preparation which has only to be tried to be acknowledged as the remedy par excellence.

Your obedient servant, L. J. RACINE.
