MONTREAL MARKETS.

MONTREAL, June 26th, 1895.

ASHES.—Receipts have fallen off again, and as the steamer "Parisian" took out a moderate lot, and other small parcels have since been shipped to Bristol and Liverpool, the stock is very low. The demand, however, at the moment is slack, and prices of No. 1 pots are still quoted at \$4.10 to 4 15; seconds scarce, and rather firmer at \$3.85; pearls are easier at \$5.25.

CEMENTS AND FIREBRICKS.—Cements continue steady at the recent stiffening, and a good round sale of 3,000 brls. of Belgian is reported at \$1.85, the range for smaller lots going up to \$1.95; English, \$1.90 to 2.05. Recent receipts have been quite large. Bricks are only in fair demand at \$15 to 20 per M.

DAIRY PRODUCTS.—The cheese shipments

last week were pretty large, and show some gain on the corresponding week of 1894, but the total aggregate export to date is much behind last year, the deficiency being some 50,000 boxes. The figures for last week were 68,845 boxes, as against 66,481 boxes in 1894. Of butter only 313 pkgs. were exported last week. The cheese market is about half a cent better than a week ago, transactions in the country and on the wharf being reported at 8 to 8 1/2 c. Butter is lifeless at old quotations. Eggs are in fair demand at 10 to 10 1/2 c. per doz.

DRY GOODS.—City retail men are better satisfied than they were earlier in the season, and for the last several weeks report a very fair seasonable business, customers who are going to country and seaside getting equipped for their summer outing. Some wholesale houses report quite a few July and August payments anticipated by city retail men. Travellers say that business in the country is also pretty good, and are sending in a fair proportion of orders, both sorting and for fall goods. Several authorities think they can note a disposition to buy fall goods earlier this season, and attribute this to a growing feeling that the chances favor a rise in values. All Bradford and French manufacturers of wool dress goods are reported to be very busy, and domestic makers of both cotton and woolen fabrics seem to agree that there are probabilities of a stiffening in values. Travellers just returned from the Lower Provinces report trade there as satisfactory.
