

Talking of patent medicines—you know the old prejudice. And the doctors—some of them are between you and us. They would like you to think that what's cured thousands won't cure you. You'd believe in patent medicines if they didn't profess to cure *everything*—and so, between the experiments of doctors, and the experiments of patent medicines that are sold only because there's money in the "stuff," you lose faith in *everything*.

And, you can't always tell the prescription that cures by what you read in the papers. So, perhaps, there's no better way to sell a remedy, than to tell the truth about it, and take the *risk* of its doing just what it professes to do.

That's what the World's Dispensary Medical Association, of Buffalo, N. Y., does with

Dr. Pierce's Golden Medical Discovery, Favorite Prescription, Pleasant Pellets, and Dr. Sage's Catarrh Remedy. If they don't do what their makers say they'll do—you get your money back.

Dr. DANELSON'S COUNSELOR WITH RECIPES.

A TRUSTY GUIDE FOR THE FAMILY.

An illustrated book of nearly 800 pages, treating Physiology, Hygiene, Marriage, Medical Practice, etc. Describing all known diseases and ailments, and giving plain prescriptions for their cure, with proper directions for home treatment.

The RECIPES are endorsed by eminent physicians and the medical press. Remedies are always given in a pleasant form, and the reasons for their use. It describes the best Washes, Liniments, Salves, Plasters, Infusions, Pills, Injections, Sprays, Syrups, Tonics, etc. These are valuable to the physician and nurse, making it a manual for reference.

The chapter upon POISONS is exhaustive, and every poison appears in the index, so that the antidote can be readily and, if need be, hurriedly found.

48 pages upon MARRIAGE treat the subject historically, philosophically and physiologically. It should be read by everybody.

67 pages upon HYGIENE, or the Preservation of Health; a chapter of inestimable value. "Everybody wishes to be healthy, and everybody, when they think of it at any rate, wishes to avoid such things as might bring disease and suffering."

50 pages are devoted to PHYSIOLOGY, giving an accurate and extensive description of the wonderful and mysterious working of the machinery within ourselves, correcting many popular errors, and marking vividly the stumbling blocks where most people, innocently or carelessly, begin to lose health. Truths are stated which to many will be surprising.
