

Russian-Chukchi Conversational Guide

The weekly newspaper Sovetken Chukotka (Soviet Chukotka) has begun the publication of a Russian-Chukchi guide. Its author is the journalist and associate of the newspaper A. Kerginto.

The instructional manual is particularly needed by agricultural specialists, managers of reindeer-breeding sovkhoses, geological and mining parties, doctors, and people working in the mass media.

It is also intended for rural and village associations of indigenous inhabitants in the Chukchi Autonomous Okrug to assist them in organizing active native language study among young people.
