

MEDIA:

Publications: Periodicals: *Canada's Health and Welfare* (monthly, English); a review of public health activities. *Industrial Health* (monthly, English); a bulletin designed primarily for the Canadian industrial worker and employer.

Other publications; issued from time to time, cover public health engineering, care of the teeth, child and maternal welfare, personal hygiene, venereal disease, tuberculosis, air conditioning and heating, sanitation, nutrition, accident prevention and factory safety, pest control, water supplies, sewage treatment, housing, sports, etc. (English and French).

Special reprints are available dealing with family allowances, physical fitness, old age pensions, pensions for the blind, etc. (English and French).

Films,
Filmstrips:

Documentary films (16mm and 35mm, English and French) and filmstrips on rural health, family allowances, physio-therapy, immunization. These are produced and distributed by the National Film Board. The Department also contributes, in co-operation with the National Film Board, towards the establishment and maintenance of two one-print 16mm film libraries located at, and serviced by the Board. One of these contains a large number of medical and biological films while the other is made up of films on public health and health education. The distribution of medical films is through the National Film Society, 172 Wellington Street, Ottawa.

Graphics:

Posters, wall-hangers and other graphic material such as portable displays and paper displays on general public health and health education.
