

INTRODUCTION

1. Introduction	1
2. Energy and Electric Power Overview	1
a) Government Policy and Planning in the Energy Sector	
b) Electric Power Supply	
c) Demand Projections	
d) Hydroelectric Power	
e) Thermal Power (Coal)	
f) Gas-based Power	
g) Captive Power Plants	
h) Transmission	
i) Funding Requirement for Eighth Five Year Plan	
3. Competitive Situation in the Power Sector Equipment/Services Market	7
a) Domestic Capability	
b) Imports	
c) Customs Duty	
d) Foreign Exchange	
e) Foreign Suppliers	
f) Multi-lateral Funding	
4. The Institutional Structure	10
a) Ministry of Energy/Department of Power	
b) State Electricity Boards	
c) Regional Electricity Boards	
d) Central Electricity Authority	
e) National Thermal Power Corporation	
f) National Hydroelectric Power Corporation	
g) Rural Electrification Corporation	
h) National Projects Construction Corporation	
i) Central Water Commission	
j) Central Power Research Institute	
k) Power Engineers Training Society	
l) Central Board of Irrigation & Power	
m) Power Finance Corporation	
5. Energy Conservation	12
a) Overview	
b) India's Energy Conservation Programmes	
c) Proposed Action Plan for Energy Conservation	
d) Role for Canada	
6. Renewable/Non-conventional Energy	15
a) Renewable and Non-conventional Sources of Energy	
b) Development of Micro, Mini and Small Hydro	
c) Tidal Power Generation	
d) Assessment of Geo-Thermal Energy Potential	
e) Solar Thermal Power	
f) Solar Photovoltaics	
g) Biogas/Biomass	
h) Wind Energy	
i) Competitive Situation in the Market	
7. Entering the Indian Electric Power, Energy Conservation and Renewable Energy Markets	19
8. Key Contacts in Canada and India	20
