

WHEAT SOLD OFF ONE PROFIT-TAKING

Rush of Selling Orders Offset Effect of Green Bug Scare.

CHICAGO, April 3.—Profit-taking by speculative holders of wheat developed into more than an offset today for stories of green bugs in Oklahoma.

Corn shorts became decidedly nervous today and many of them covered at a sharp advance.

INCREASE IN FIRE LOSSES CONTINUES

The Monetary Times estimate of Canadian fire loss for the year ended in 1913, 1914, and 1915.

Table with columns: Random Notes on Mining Matters. It was officially announced to The World last night that the Kirkland Lake Proprietary Company has allowed the option which it held on the Teck-Hughes mines to expire.

While during the market there was quite an active trading in gold, after the closing the real market was started and it is said that as much as 70,000 shares were traded.

Dome Mines started out stronger on yesterday's market, going to \$11.50. But a flood of selling orders soon deluged the stock, which closed at \$10.25.

Two veins are now being worked on the Teck-Hughes property, both from the 400-foot level. In both instances high-grade ore is being bagged.

That developments of importance are accumulating rapidly in the Porcupine Camp is clearly barometered in the following wire received last night by Hamilton B. Wills.

SCHUMACHER, April 2.—McIntyre has 200 feet of \$23 ore at the 400-foot level. This ore body is six feet wide and is still good in one of the faces.

The annual meeting of the McIntyre is to be held at the mine next Monday when it is expected the report will be more satisfactory than ever before in the history of the property.
