April 22.—Canadians t share the indignation ranks of United States delegates to the coming Hague peace conference for women on their learning of the reply sent by former President Roosevelt to a letter written to him by Mrs. George Rublee of Washington. She asked the colonel for his views on the conference and he gave them in this way:

"I assume from your letter that you have not read my recent little book called America and the World War, and that you wish my judgment about joining the peace organization of which you write. I emphatically advise you not to join such an organization; the platform of principles inclosed in your letter seems to me both silly and base.

Frightful wrongs have been committed upon the men women and children of Belgium. The Belgians have fought valiantly against their oppressors. Yet this paper you enclose does not contain one protest against the commission of such wrongs as have been comsion of such wrongs as have been committed on Belgium, and does demounce war in such fashion as to include in the condemnation the Belglans just as much as the oppressors

Britain Custodian of More Than Four Hundred Million Dollars' Worth.

LONDON, April 22.-The estimated value of German property in Great Britain now in the custody of the public trustee was given in the house of commons this afternoon as in the neighborhood of £85,000,090 (\$425,-

Russell Rea, who, on behalf of the board of trade, gave these figures in response to a question from Lord Charles Beresford, assured the questioner that "these German assets will be available for such disposal as seems proper at the conclusion of peace." AUSTRIANS FLED BEFORE BAYONETS

Wily Muscovites Lured Enemy on by Holding Back Fire.

MANY CAPTIVES TAKEN

Whole Austrian Battalion Had to Surrender to Russians.

PETROGRAD. April 22 .- Thrown back from the principal summits of the Carpathians to the Plains of Hungary. the forces of Austria are now attempting to relieve the weakness of their position along the centre of the Carpathian front, namely, the Mezolaborcz-Lupkow region, by two parallel outflanking movements, one operating in the direction of Stryj, which is trying to bend back the Russian left, and the cther in the vicinty of Gorlice, in an effort to surround the Russian right.

Lured Them On.

The results of these attempts have been officially announced in Petrograd. The tactics of the Russian forces were to invite the enemy to advance by non-resistance. Not a shot was fired until the range was very close. The Russians then suddenly charged with the bayonet, with the result that the Austrians were completely routed, the Russians taking an unusually large number of prisoners. By the same tactics the Russians ack from the principal summits of

trian battalion with its full complement of officers.

Loss Was Temporary.

A stubborn battle near Koziouwka.

April 19 and April 20, serves to give an idea of the intensity of the Carpathian fighting. After a sustained assault the Austrians succeeded in taking an elevated position in face of strong Russian defence, but after two hours of possession they were forced to abandon the position won with so much difficulty.

Other Austrian efforts along the River Stryj, which orm part of this same movement, are continuing to develop, but so far without decisive results.

TAKING OVER ALL **ELECTRIC WIRING**

Hydro-Electric Power Commission to Enforce Act Thruout Province.

The Hydro-Electric Power Commission are taking over all inspection of electric wiring thruout Ontario.

By reference to a notice in another column of this paper, it will be observed that the Hydro-Electric Power Commission intend enforcing the Electrical Inspection Act thruout the province. The commission advise that they intend appointing more inspectors all over the province, so that there will be no section where an inspector cannot be reached within a reasonable time and with the minimum of expense.

Owing to a recent amenda Power Commission Act, all electrical inspectors thruout the province, who were formally appointed by different municipalities, will be shortly taken over by the commission, so that the municipal councils will have no further responsibility in this matter. This is an excellent move, and one which has met with the heartiest approbation of the electrical contracting and engi-neering fraternity.

The Hydro Power Commission will, however, from this office control the inspectors thruout the province, and are now advising all the different musicipalities regarding the nature of the act, and taking steps to provide inspectors as quickly as circumstances will permit. This portion of the work is under the electrical inspection de-partment, situated at 53 West Rich-
