Budget Speech Today

OTTAWA, April 3 .- Concern-

ing the probable announcements by Mr. Fielding in his budget

speech there is considerable speculation in the corridors this

evening. It is taken for grant-

ed by many that the rise in Steel Corporation stock is the

direct result of a "tip" given to Liberal members of parlia-ment that Mr. Fielding will an-

nounce a continuance of the bounty on steel rods. Others

discount this on the ground that there would be a revulsion of

feeling in the west, which the government is now straining

Fielding and Paterson App.oached Reciprocity Conference at Washington Without Statistical Information Necessary For Proper Handling of Case For Canada.

MEMBERS STILL WAIT FOR THE INFORMATION

OTTAWA, April 3 .- (Special.)-Since January the house has waited patiently for the statistical information necessary for an adequate discussion and understanding of the reciprocity agreement, but nothing has bees forthcom-This inexplicable delay was the cause of a sharp debate to-day. The opinion was vouchsafed that the reason is simply that Messrs. Fielding and Paterson committed themselves to hargain concerning the effect of which

they knew nothing, and of which they are now too ashamed to let the public know the facts. It was pointed out that when the phlet published by the United

DIDN'T APPOINT P.W.ELLIS Appointment Referred Back By 13 to 9 **AWAITS HYDRO'S MOVE**

Obstructing Good Government

Last night the city council, by a vote of 13 to 9, decided to adopt The Globe policy against good government. It is onceded on every hand that the hydrolectric business of the city is in danger of becoming a mess unless capably managed. As Toronto is the major partner in the hydro-electric union of the province, and the failure of Toronto might wreck the whole scheme. The Globe and its friends are willing to take that chance. They begin by making it impossible for a first-rate man to be appointed to the city electric commission. Controller Hocken, to his shame be it said, objected to the gentleman who has yielded to the most earnest solicitations and agreed to accept the position, on the ground that Mr. Ellis had no municipal training. This means that another ward-heeler contest is to take place over the chance of electing a machine politician to the direction of a public enterprise, one of whose chief recommendations has been that it is entirely non-political.

Good government, by means of an independent commission, was looming in sight thru the appointment of an able electric commission as a start in this field. Last April The Globe saw the danger of good government, and warned the people that good government was not desirable. The people will take note of last night's vote, and they must soon realize that good govagainst corporation-inspired newspa-

pers. machine-led politicians and the general enemies of civic progress. This pretext was seized that the appointment of Mr. Ellis is only to be

Aldermen Accuse Commission of Rushing Matters Thru Board of Control, and Fear City Would Have Little Say in Fixing Rates-Tubes Report Goes Thru.

Sat for 6 hours and 55 minutes. By a vote of 7 to 15 passed report recommending the expenditure of 45000 for preparing plans and speci-fications for the construction of toubes from the Union Station to St. Clair-avenue on Yonge-street, which will admit radial cars.

By a vote of 9 to 15 in committee and 9 to 13 in council referred back to the board of control their nom-ination of P. W. Ellis as the city's representative on the commission which is to have charge of the city's electrical department.

Referred back the part of the property committee recommending the repairing of Brockton Hall, in-stead of disposing of the site and dismantling it.

Referred Ald. McBride's motion for the abolition of lettering on the city's autos and buggies and the substitution of the city crest to the property committee. Referred the motion of Ald. Mc-Bride for the abolishing of rents on water meters to the works com-mittee.

Placed the question of arranging with Contractor Weddell for re-pairs to the intake entirely in the bands of the board of control.

Referred back to the board of control a recommendation to pur-chase an American-made automo-bile for the property department, with instructions that a Canadian machine be used instead.

Authorized the purchase of three runabout autos for the city electri-cal department, the cost of which is not to exceed \$1000 each.

Passed the resolution forwarded by the board of education to inves-tigate the charges against Chair-man Levee and Ex-Trustee W. H. Smith regarding the coal contracts of the board, without discussion.

Discussion of the appointment of P. W. Ellis to the city's electric commission occupied almost two hours of the council's time yesterday and the quesdelayed until the hydro-electric com- tion was finally referred back, not bemission appoints a man. Mayor Geary cause of a single member of the counhas been faithful in this matter, and cli objecting to the placing of Mr. Ellis we are inclined to account it to him for on the board, but because some thought
