Mining Markets Move in Dulness---Commercial Reports

STAMPEDE IN GRAIN PIT PRICES GO SOARING

Black Rust Reports From Wes Send Shorts in Wheat In Panic-Corn and Oats Advance By Leaps and Bounds.

option to-day amounting at one time to 3%c for wheat, 3%c for corn, and 4%c for oats. Black rust is area and No. 2 inspected steers and No. 2 inspected 4%c for oats. Black rust is spreading and the scantiness of the supply of for der in store here was responsible Cereals closed nervous all around, w wheat up 1%c to 2%c. net, corn at rise of 1%c. to 2%c. and oats lifted to 4%c. The outcome in provisio varied from 15c decline to 7%c increa

Muggy warm weather over the tire spring crop country was what chiefly stirred up the wheat trade. It was not, however, until there had been a succession of despatches from one state after another telling of new discoveries of black rust that the pit bean to show signs of warm. gan to show signs of worry. Assurances from experts that in the main the danger point had been passed were relied upon even after advices from the northwest that some damage was conceded, particularly in late sewn ields. Nevertheless, moisture and heat appearing together, it was apprehended had formed an influence which, to say the least, was threatening on this side of the Canadian line, and might

prove a calamity across the border.

Corn Shorts Stampeded. Persistent bidding for July on the part of a few of the larger elevator and commission concerns put corn shorts on the defensive from the out-Country offerings were very light and there were damage reports from Oklahoma. It was pointed out that contract stocks in Chicago were more than a million bushels less than a year ago. Freight extended itself in the last from 64%c to 66%c, closing strong 24c up at 66%c to 66%c. Cash grades were

Oversold conditions in the oats trade led to a scramble in which July was run up 6%c above yesterday's low point. The local supply of contract oats was shown to be completely exhausted in the public elevators.

Provisions rose on account of the grain strength and owing to a lighter run of hogs. December lard showed a

MONTREAL PRODUCE.

MONTREAL, July 23.—There was a good enquiry from foreign buyers for Manitoba spring wheat and oats, but the volume of business done was small, as bids were generally out of line. The local demand for oats was fairly good and the undertone to the market is firmer with sales of round lots of No. 2 Canadian Western and extra No. 1 feed for shipment from Fort William at 13% c.i.f. A fair volume of business is doing in flour for local account, but the export trade is quiet. Demand for milified is good. Butter is stronger under a fair demand at an advance of %c. Cheese fairly active and firmer. Eggs stronger at an advance of %c. Provi-10.35 10.37 10.15 10.15 10.25

bullion from the Cobalt camp, sent out is near at hand, with many mills in ed, when the shipping record of ore will be surpassed by that of the bul-Shipments of bullion have been increasing steadily. The week ending

The record established during the week ending June 29 was 123,891 ounces, valued at \$76,325.76. The Nipissing holds the shipping record on bullion so far. The total shipments for the year to date, less than seven months' time, are just about 1,000,000 ounces lower than the entire 12 months of 1911, showing the enormous increase that has taken place during that time in builion shipments. Undoubtedly nine months of 1912 will surpass the entire previous

The increase in bullion shipments for the Nipissing alone shows as follows: Record to date for 1912, \$1.233,169.14, which is only \$35,000 like mines with 114 entire year of 1911. Other mines with mills in operation have increased accordingly.
