rist of sales might lead one to jufer. Today's trading was largely confined to the
exchange the floor trader finding an excellent opportunity for frequent in-and-out
deals. The tone of buoyancy was not intecfered with by outside developments,
which, if anything, favored the growth of
bullish sentiment. The talk of reorganization of the Crow's. Nest Coal Company is
only of direct interest to present holders,
ine shares of the company for the present,
it is shares of the company for the present,
ine shares of the scompany for the present,
ine

than the preferred at prevailing prices.

Frick interview regarding prosperous conditions in iron, steel and coke making and kindred lines has very good impression.

Eastern steel plans buy more basic iron; more structural contracts placed; rull orders under negotiation. All mills busy.

On Wall Street.

The known movements of money for the week ended yesterday show a gain of \$11.

dencies show no lack of interest or support.

The advanced Gould group, which at first seemed to come from scattered support, and perhaps buying for control of its lesser properties, was somewhat restricted today. There was enough evidence to hold general trend of the market without Impairment in this direction.

The iron, steel and metal shares, with the equipment issues, show the effect of free realizing in detail, but strength was demonstrated in the leaders, like Smelters. Amaigamated Copper and the equipments, which included Car and Foundry, Steel springs and Pressed Steel Car.

In point of fact the market was, as become stated, a more complete development of its recent strength and activity.

Meantime a comparison of pust, present and prospective earning power of all issues a the security list has to constitute the nuide for the market.

It would appear that the market has many expendences as a constitute of the strength assect for the strength and activity.

the security list has to constitute the dide for the market. It would appear that the market has many vorable aspects from this point of view. Ennis & Stoppani wired to J. L. Mitchell, ckinnon Building:

The market to-day has developed great rength, with new bigh records and subantial advances as outcome of the tradig. London sold considerable on balance, at there was foreign buying in the Wash-Pittsburg Terminal bouds, in Great cestern B's, and O. & W. The carnings f. C. & O. certainly warrant the increased ividend now rumored. With reference to P., it is well to keep in mind that the iside interests are credited with extensive urchase of calls on the stock in London, here was what appeared to be very strong aying in St. Paul, S. P., and S. R. during he session. Any aggressive buying of St. aul reveals how limited the floating supdy is at present, and it is thought that accumulation in anticipation of rights to tookholders has been in progress for some lime past. It is very probable that Anaonda is in a cornered position, but the interests in control appear to be heavily compitted in the general list, this suggesting no immediate adverse outcome of the matter. The free supply of money available at this centre, with outside continuous brilliant, and public interest steadily increasing, are the factors exerting their logical influence upon prices. We continue to favor purchases on any recessions.

ANNOUNCEMENT

We have had made a rigid examination of the affairs of the Western Oil & Coal Company, and after careful consideration, have purchased a block of vendor's shares, which we are prepared to offer to the public as an investment superior to anything that we know of at the present time upon this market. The following are some of the strong points regarding this com-

pany They have:

SIXTEEN THOUSAND ACRES of selected oil and coal lands

TWENTY THOUSAND DOLLARS IN VALUE of plant, including two

Standard boring rigs in operation, and are without indebtedness with considerable cash to carry on their operations, and a large block of shares still

TWELVE MILLIONS OF TONS OF COAL is the estimate which their engineer, Mr. Woods states one-half section of their lands will produce: They have, besides this, fourteen square miles of coal lands as yet unprospected, immediately adjoining the Crow's Nest Coal Company's property The coal is good domestic and good steaming coal. This asset alone would to be worth to the company very much over a million of dollars.

THE CAPITALIZATION of the company is only \$1,000 000, divided into one million shares of a par value of one dollar each, and are fully paid up and non assessable. non assessable.

HIGHEST GRADE OF OIL. The oil is stated to be the highest grade of

One Per Cent. Monthly Dividends

In accordance with our policy to rapidly extend the develop-ment of the properties on an enormous scale and thereby great-ly increase the profits, a limited amount of treasury stock is now offered at the special price of

in their treasury.

TWELVE MILLIONS OF TONS OF COAL is the estimate which their

any ever found in the Dominion of Canada. The analysis made by Dr. Ellis, of this city, shows the oil to be as follows:

By Weight 3.16 per cent. W. H. ELLIS. School Practical Science.

Owing to one or two of the Vendors, who were the miners who discovered the locations having sold to us very cheaply we are able to offer the stock at less than the treasury stock was last sold at, viz: fifty cents per share. We shall offer to purchasers, to start the ball rolling FIVE THOUSAND SHARES OF STOCK, at twenty-five cents per share, in blocks of five hundred shares each, and will not sell to any one purchaser more than one thousand shares or less than five hundred. When this block of five thousand shares is sold, the price will be advanced. In any case, we shall advance the price on the twenty-third instant. If you wish any further information, apply to use for prespectus.

21-23 COLBORNE STREET, TORONTO
