The Word corres pondent yesterday interviewed Chief Lawrence, and after reading the communication he made the following explanation: I am somewhat at a loss to know why my work in connection with the inquest saodid be called duto question, but, as far as I could judge, and had means of obtaining. The Jury that sat on the inquest was as representative and intelligent as it was possible to obtain. The reason for obtaining men from different parts was partly owing to Taffeta, fine line and dot combined on dark grounds, at 85c.

Cucumbers and meions are "forbidden fruit" to many persons so constituted that the least indulgence is followed by attacks of cholera, dysentery, griping, etc. Those persons are not aware that they can indulge to their heart's content if they have on hand a bottle of Dr. J. D. Kellog's Dysentery Cordial, a medicine that will give immediate relief and is a sure cure for the worst cases.

They gave me salve to put on, but it and its good. Finally my leg became a solid they amonth I could not put my foot to the floor.

"I was advised to use B.B.B. and did so. Three bottles healed up my leg entirely so that I have never been troubled for the Worst cases.

Even the man of means who doesn't grumble at expense hates the waste of time entailed in having clothes made to order. Conditions have changed—the prosperous business man, as well as his less affluent brother, knows that ready-to-wear clothing can be bought here to advantage—from every point of view. There's no time lost—there's a big field for selection—there's a perfect idea of the finished appearance and there's no chance to be disappointed in quality—for we never misrepresent.
