# OTTAWA COLLEGE ARE CHAMPIONS ARGONAUTS PUT UP A GOOD FIGHT

But Fortune Favors the Students and Their Allies and the Ultimate Score is 18 to 3-Gleeson Drops Two Goals Brilliantly From the Field and Turns the Tide.

(From The Sunday World.)

Montreal, Nov. 30 .- (Special.) - Argonauts went down before Ottawa College to-day to the tune of 18 to 3, and now the College are Canadian chamtive strength of the teams, altho Ottawa College undoubtedly put up the best For the first half, and almost half of the second half, College was never across Argos' goal line. They had scored 10 points on two drops from the field, but Argos had held them well back from the line. This, and the game, and a game which was individually good. Where College was superior was in team play, and in the following and tackling of the wings. The Argonauts most of the time broke thru the College line, but did not follow, and Gleeson's return punts always gained ground.

The Argonauts won the toss, and had the wind and sun Langton placed the ball. The feature of the first half of the game was cerso lost ground. The Argonauts scored very shortly after play began on a rouge. From the kick out, Hardisty again returned, and Gleeson was tackled by Grant for another rouge. On the kick out, Corbett got well up field on a run from scrimmage, and play was for some time at centre field. Previously Argos' scrimmage had been heavily penalized by Mason, the

referee. Four straight free kicks had been given to the College, and much hard-earned ground was lost. College got their first score on another free kick for alleged illegal scrimmage at 15 yards from their goal. Gleeson put the ball in play, and dropped a goal by one of the prettiest

kicks ever made on a football field. The score was now 5 to 2. The Argos had numerous supporters in the stands, who were not apparently discouraged by the result of Gleeson's beautiful kick, and they cheered on the team. Money was bet freely, and where the betting had started in at even money it came down to 10 to 7.

Until two minutes before half time neither side made any further indication of scoring. Then French was hurt, and Kent put the ball in play, and touched it behind the College line, claiming a try. Referee Mason called them back, saying that he had stopped play. Joe Wright insisted that the whistle had not been blown, but, of course, the referee's decision went. Halftime was just up as Joe Wright went off the field. He said: try, but we can get another one, I guess, pretty easy."

The second half gave College the wind, and they used it to advantage. Gleeson, from a scrimmage, dropped another goal, making the score 10 to 2. from there to touch-in-goal, scoring Argonauts' last point. Score, 10 to 3.

The rest of the game was brilliant on both sides, especially in running. had forced the play into College territory, when, from a scrimmage, French made a splendid run of 50 yards for a try, which Callaghan failed to convert.

THE LEAGUE BASEBALL WAR.

Fight to the Finish. New York. Dec. 1 .- "War to the knife; no narter to be asked or given," is the base ball situation as it stands to-day between the National and American Leagues. recently appounced that there is no chance

for peace, as the league is a unit in its pur-Ned Hanlon, speaking for his fellow-club-owners, said recently in Baltimore: "The National League had a good season, has plenty of money, and is determined to fight the American League to a finish, and thus

For the American League, President Ban Johnson has just issued an official statement, as follows:

"We will never let up until we drive the National League out of business. There will be no peace measures adopted this winter. The time for burying the hatchet with our friends the enemy is passed. All chances for peace vanished when we went ahead and completed our plans for putting a rival club in St. Louis. I can't see what will become of the National League if the war keeps up, for it is head over heels in debt now. The American League don't owe a dollar in the world. We are stronger today than we ever were, and there isn't a weak spot in our circuit.

Then Johnson gave out a little inside baseball information regarding certain peace negotiations that took place last summer.

starvation. The snow was so deep that it starvation. The snow was so deep that it didn't appear to some observers that the deer could get anything to eat, and from this it was reasoned that there must have been general starvation.

These calculations were by no means borne out by the facts. On the contrary, all experienced Adirondack huntsmen say they found deer just as plentiful, if not more so, than last year, and last season was an especially good one in this respect.

Guessing at the Slaughter.

Every year efforts are made to procure

Guessing at the Slaughter.

Every year efforts are made to procure an approximate idea of the number of deer killed. Isstimates, however, are only approximate, and it is doubtful if much weight can be attached to them. An experienced guide has declared that the aumber killed this season will easily foot up to six thousand. He based his calculations on conversations with other guides and on his general observation. It is probable that six thousand is a fairly conservative estimate, as a comparison with last season will show.
