O. A. C. INITIATION AT GUELPH TAME AFFAIR

GUELPH, Sept. 24.—The annual initiation with the O. A. C. was held this afternoon on the campus, but owing to the small attendance it proved to be a very tame affair. About the only thing to create any excitement was the flag rush, which was won by the sophomores with comparative ease. They succeeded in locking up quite a number of freshmen before the event took place, and this, of course, greatly enhanced their chances of winning.

tary writer describes the damage done to Doual by British guns, the inference by experience being that the Germans plan to destroy the place themselves. He speaks of the shelling and bombing of Doual as "in reality a domestic war between the envious mining industry in competition with the collieries of Northern France," a clumsy and ludicrous attempt to split the Allies by the old method of placing the interests of the British against those of the French. The latter know only too well that what is not injured by the guns of the Allies will be left in ruins by the retreating Germans.
