Dr. Jerry Laflamme made a new reseason with a likely looking stick well-taped and walked off the ice Monday night with the same stick. This was the first time in Dr. Laflamme's useful hockey career that one stick has lasted him a whole season. Jerry is going to tie it up in dark and light blue ribbons and hang it in his dental office.

Riversides left for Kingston last night. The first game of the senior O.H.A. semi-finals will be played in the Limestone City tonight, with the Frontenacs, and the return game here Friday.

### How Capt. Richardson Met Death in France

From a budget of letters received in Kingston, written in France subsequent to the death of Captain George Richard-Kingston. written in France subsequent to the death of Captain George Richardson, the Kingston hockey player, who only a short time ago sent home the story of the heroic death of Scotty Davidson, it appears that he was in charge of a party which was detailed to make an attack on the enemy trenches at dawn. In preparation for the attack it was necessary that certain entanglements of the enemy should be removed by explosives. These had been laid. Captain Richardson had blown his whistle for the return of his men, all of whom had returned, with the exception of two. To ascertain if anything had befallen these men, Captain Richardson climbed over the parapet, and, in the face of a vigorous machine-gun fire from the enemy trenches, went in search of them. He was thrice wounded, once thru the body, again thru the stomach, a further bullet passing thru both hips. When he was wounded he endeavored to get back to his trench, and, altho subsequently twice hit, he was able to get close enough to the parapet to be rescued by his men.

On being carried to the dressing station, it was learned that his injuries were of such a serious nature that death was inevitable. Strong but gentle hands did everything possible to mitigate his sufferings, and after three hours, during which his courage and calmness did not desert him, he passed gently away, the result of an internal hemorrhage, which it was found impossible to staunch.

### Toronto School Team Had Good Alibi For

Ottawa papers admit that the Toronto chool team had a good alibi for the 10 to 1 defeat there last Saturday. About 2500 saw the game. In scoring such a decisive win, says The Free Press, it is only fair to the visiting school boys to say they were snowed up outside of Ottawa, Saturday, and, instead of reaching the city early in the morning, did not get in till three in the afternoon. The party had nothing to eat since six o'clock the previous night, and a boy's stomach separated that length of time from a square meal is the next thing to a Mexican rebellion. The Toronto students also forsook their own rules, viz.: seven men O.H.A. style—and played under the six-men Ottawa school code. They had eight boys on their squad, while the Ottawa team used thirteen at various times. The only stipulation, however, was no Ottawa players once could return to the ice. The Toronto players, however, were allowed to rest men up and go back again
