STEANBOAT DISASTRE.—The steamboats Gover-nor Dudley and North Carolina, on their passage be-tween Wilmington and Norfolk on Saturday night, unfortunately came in collision with each other. The North Carolina sunk almost immediately, the passen-gers were saved, but the most of their baggage and the mails were lost. Several persons lost conside-rate the captain of that boat, and state that they con-rate the captain of that boat, and state that they con-rate the captain of that boat, and state that they con-rate the captain of that boat, and state that they con-lisifer the mate, the officer in command, as guily of the grossest carelessness and neglect of duty. County of Saint John. PROVINCIAL GROLOCY. — We are informed that an extensive deposit of Iron Ore has recently been dis-covered at the head of Belliste Bay, by Dr. GENER, and his son. The importance of the labours of our Provincial Geologist are daily becoming more abri-jour. Forty men, we learn, are employed in quarty-ing the Granite found by him on the banks of the Saint John in 1958, and a number of vessels are now engaged in transporting the beautiful and durable rock to this City, where it is extensively used in rebuild-ing the Burnt District, being much cheaper and pre-ferable to the imported varieties. We are informed that the Juil at Kingstron is to be built of this superi-or material. It has found its way to Fredericton al-son, and will doubtless sono become an article of com-merce. It is pleasing to observe that the natural re-sources of the country, by the foresight of the Pro-vincial Government, are becoming better known, and province.—Courier.

Province.-Courier. THE DECK LOAD LAW.-We understand that a despatch from the Colonial Secretary to His Excel-lency the Lieutenant Governor has been received, stating that "the Committee of the Lords of the "Privy Council for Trade have reported their opini-" on that the prohibition of carrying Deck Londs, by " Timbor Vessels, imposed by the Imperial At, 24 " and 3d Victoria, c. 44, should be confined to voya-" ges across the Atlantic, to Ports of the United " Kingdom.' - Thus leaving untooched the carrying of Boavis, &c. on deck, by vessels employed in the West Indu and Coasting trades. Also, that " A Bill " for the revival of the above mentioned Act is about " to be introduced into Parliament, which has been " tamed in conformity with this opinion." The carrying of Timber or Wood of any descrip-tion, on deck, will also, by the same Act, be made ulawiul during the winter months. A view in the start and style of Mezzotant Engra-ing on Steel,— His late Majesty, King WILLIAN the Fourth, Her present Majesty, Queen VICTORIA, And His Royal Highness, Prince ALBAR. The above are the most correct Likenesses that have been published, being considered as Master pieces from the hands of the celebrated Artist, K. M. HORGERTS, of London. Their extensive sale and general popularity has induced the pub-lishers to send a number of copies to the British Provinces of North America, and have appointed Mr. JOSEPH GRAHAM, Agent, who is now in this City with specimens, for whom he is taking orders. The publishers sineerely trust that the low price at which the Portraits are now offered, and their decided superiority to other Engravings, will be a sufficient inducement to all lovers of the Fine Arts, as well as Her Majesty's loyal subjects in general, to endrace the present opportunity.
