

J. A. GRANT, LTD. GET BRIDGE CONTRACT

Their Tender for Pokok Work Accepted—Tear Down Warehouse.

In committee this morning the common council decided to accept the tender of J. A. Grant Ltd. for the Pokok bridge, to authorize the expenditure of \$18,697.89 by the Civic Power Commission for line material, to call for tenders for the tearing down of the McLeod warehouse and to refer back to the Civic Power Commission the matter of payment of extra cost on the steel structure at the sub-station.

Commissioner Frink recommended that a concrete retaining wall be built on the property of Andrew Shepherd, 110 St. James street, West Side, at a cost of \$872, to be paid for from appropriation.

Commissioner Frink reported that the tender of J. A. Grant, Ltd., of \$12,241.45, for the Pokok bridge, was the lowest, and he moved this tender be accepted. Carried. He also reported that this was \$975.45 less than the estimate of the engineer for the work. The balance of the work to be done by the public works department, amounted to \$2,440, and this brought the total cost to \$14,681.45. All the other tenders exceeded the estimated cost. The estimate of cost was approved and payment by bond issue ordered. The expenditure of \$18,697.89 by the Civic Power Commission for line material was authorized, provided the various contractors were required to make a deposit of 5 per cent. to ensure delivery on time.

The request of the Civic Power Commission for an increase of \$241,024.68 in the bond issue to pay for the steel structure at the sub-station, was referred back for more information as to the item for increase in the price of steel between the call for tenders and the award of the contract.

Commissioner Ballew reported that it would cost not less than \$6,000 to repair the McLeod warehouse and he moved that tenders for the removal of the building be advertised. He said he did not think the expenditure to repair it would be warranted. Carried.

Animal Rescue. The petition of Charles McFadden, protesting against the location of the Animal Rescue League in St. David street was taken up and action deferred. Commissioner Frink said that next year it might be possible to provide a shelter on the lot purchased by the public works department on the Marsh Road.

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

The personal selection of seats for the concert of the Boston Symphony Ensemble in the Imperial theatre Friday evening at 8.30 will begin at the box office tomorrow (Tuesday) morning at 10 o'clock. Many people prefer to make particular choices of their seats for an entertainment and for this reason the box office sale period has been lengthened to four days instead of two as usual with other kinds of attractions. Now that the exhibition activities are over and families are getting settled back into the city, also that the daylight time is set aside for another year, the wonderful concert programme provided by Signor Vanni and his Symphony soloists this week-end has a clean path in the thoughts of the people. The afternoon programme this year (8.45) is an opportunity for school children, collegiate students and the suburban public to enjoy the treat.

Imperial Theatre's Latest News Items

"Bella Donna," being shown at the Imperial tonight and tomorrow, has been a storm-centre for censors and producers. It was finally submitted to the Supreme Court of New Brunswick on appeal. This validated all contracts. It is one of Paramount's big pictures of the year, hence the determined fight to have the public judge it. Imperial Theatre is celebrating its tenth year as a new building this night and all attractions were selected with that point in view. The Boston Symphony engagement this Friday is the special treat, as it were. On Wednesday four choruses of the great English comedy "Me and My Gal" begins. This is the much-talked-about British knockout as a fun picture. It has run for weeks at a stretch in the bigger Canadian cities.

BIG SHIPMENTS OF POTATOES HERE

Additional Facilities Needed — J. C. Chesley Takes Up Matter.

That larger facilities will be necessary to handle the potato shipments from this port during the coming season was announced this morning by J. C. Chesley, local agent of the Marine & Fisheries Department, on his return from Ottawa. From present indications potato shipments from New Brunswick will be larger than last year and representation has also been made to have large shipments from Nova Scotia and Prince Edward Island sent through this port. As the working capacity of the potato shed in West St. John was taxed last season, Mr. Chesley said additional room would have to be acquired immediately. With this end in view he is taking the matter up with the Public Works Department and has every hope of securing extensions.

With reference to the shipment of cattle, Mr. Chesley said he had given the matter consideration while on his trip to Ottawa. In Montreal he learned that the shipments had fallen off during the last two months and there was no way of telling how heavy shipments might be from this port during the winter. He explained, however, that St. John was well fitted for the handling of cattle and was in a position to take care of at least 4,000 head a month.

The Halifax Echo says:—Work will start next week on the cattle sheds which are to be erected on the Government pier at Richmond. The sum to be expended on this construction work is \$40,000, and as the work is to be pushed ahead vigorously it is expected that the sheds will be ready for shipping cattle during the coming wharf, and turning around to look at the C. N. R. expects to do a big share of the cattle export business from this port during the winter. Vice-President Dalrymple intimated during his visit to Halifax that it was the policy of the railway to utilize this port for that purpose.

SHOE WEEK HERE

The first meeting of the National Shoe Retailers' Association here, and affiliated with the Retail Merchants' Association, was held in the latter's rooms this morning. There was a discussion of "shoe week," to be held in St. John September 17 to 22. A strong committee on publicity was appointed. The week will bring the shoe lines prominently before the public for opening of the fall business. The meeting was fairly representative of the city dealers and those who did not attend are to be communicated with.

It was decided that at a later date there would be a further meeting of the boot and shoe dealers of the city, and still later the matter of a provincial association will be taken up. The application of the Express Traffic Association relative to rates was discussed and a resolution was passed calling upon the St. John branch and the financial executive of the Retail Merchants' Association to take steps in opposition.

Manager Porter Unable to Speak of Exhibition Results Yet.

After desolation and the mass of refuse left behind by the departing exhibitors was all that was left this morning of St. John's 1923 Exhibition. H. A. Porter, general manager and staff were at the grounds today attending to some final wind-up arrangements. Mr. Porter said he would be unable to say how the show panned out financially until all reports had been presented.

Most of the live stock exhibitors with their animals left the city yesterday, some for their homes and some each to the St. Stephen and Woodstock shows, for which special trains were provided. The midway folks also left for one or other of the fairs.

Among the exhibits in the art section taking prizes, was that of Miss Helen M. Ryan, 60 Sydney street. Miss Ryan was awarded a first, for an original landscape, done in water colors. She has been doing considerable work for the C. N. R., for the illustrated booklets. Her sister, Miss Frances Ryan, took several prizes for needle work exhibits.

CAUSE & CURE A CAUSE MUST BE ADJUSTED. MADE RIGHT.

CHIROPRACTIC is based on fundamental, natural laws. The organs of the body are the motors, the nerves are power lines which carry vital energy or life to all parts of the body. Impingement or pinching of the nerves interferes with their life-carrying power and disease is the result. The Chiropractor adjusts with his hands the misaligned vertebrae and the impinged nerves are free. The flow of life enters the part diseased, normal functions are resumed and health restored. The Chiropractic way is Nature's way.
