An unverified report said the separatists were plundering the shops in Aix La Chapelle which refused to open, the raiders helping themselves to the supplies they desired.

SAYS CANADA IS FLOODED WITH SCUM
Brigadier Gen. Hughes Claims of the Class of Immigrants Here.

Ottawa, Nov. 2.—Canada was being flooded with the scum of central European countries and something had to be done at once, if this country was to remain British, Brigadier Gen. Hughes, superintendent of penitentiaries in the Dominion told the Sons of England last night. The resources of Canada were the birthing of those whose forefathers had labored to build it and that birthright was now being usurped by foreigners. He was not an alarmist but knew the need for action existed after a careful survey of conditions.

Not Excited About Countess Warwick
London, Nov. 2.—If the long famous society beauty, the Countess of Warwick, had been the pioneer statesman of England, the British newspapers would have been excited over her platform appearances in her campaign for a labor seat in the House of Commons. However, three women already hold seats in Parliament, and the candidacy of the Countess has aroused hardly more interest than if she were a male politician.

SCIENTISTS ARE RIVALS FOR PATENT

Stake is International Prestige and Betterment of Mankind.

NEW DIAGNOSIS PLAN
Western Ont. Univ. Doctor Perfects His; Michigan Man Speeds Up.

(By Canadian Press.)
London, Ont., Oct. 2.—A race of stakes of which are international prestige and the betterment of mankind—is to be staged in the laboratories of two neighboring universities, one in the U. S. and the other in Canada.

The former is the University of Michigan at Ann Arbor, and the Canadian university is the University of Western Ontario here.

Dr. R. Waud, of Western University, has been successful, it is said, in perfecting an appliance and method of diagnosing diseases of the circulatory system of the body and also other diseases indicated in that system.

A patent has been applied for at Ottawa and steps are being taken to secure a patent in the U. S. When that is accomplished, if it is, the full details of what will work a revolution in certain phases of disease treatment will be published.

It is also definitely known scientists of the University of Michigan, backed by wealthy and long-established institutions, resist, are working along similar lines in order that they may perfect a method similar to Dr. Waud's and secure the U. S. patent.

Dynamite Calm In Railroad Smash

Joplin, Mo., Nov. 2.—Dashing wildly and unguided, three cars of dynamite careened along the track near Carl Junction, Mo., toward a St. Louis and San Francisco passenger train.

The engine and train jumped, turned over in a ditch, and the dynamite cars tipped over. Before the flames, which wrapped the cars as they were ignited by the engine, reached the dynamite, the passenger train was pulled out of danger. It was very calm dynamite—almost philosophic.

WILD BILL SLAIN IN NEW YORK

Notorious Gangster, Bullet in Neck, Head Beaten In, Found in Shack.

KILLED IN SLEEP
Girl Wife of Outlaw Leader Seeks Him at Police Headquarters.

(By Canadian Press.)
New York, Nov. 2.—Wild Bill Lovett, one of New York's most feared two-gun gangsters, who, though under arrest a score of times always escaped capture, died yesterday with a bullet wound in the neck and his head beaten to pulp.

A policeman, prowling around a squalid, weather-beaten tenement in the factory region under the shadow of Brooklyn bridge, found the gangster in a rear room where he had camped for the night to sleep off a drunk.

Apparently the leader of the "White Hand" gang, that for years had worked in the Red Hook district of Brooklyn, had been done to death in his slumber.

The police made no secret of the measure of relief brought them by the passing of the notorious gangster in the last few months. With the slaying of Lovett was recalled the dramatic end of "Kid" Dropper, shot to death by an enemy recently when he was leaving a court house under heavy police guard after being arraigned in a gangster's case.

But with Mrs. Anna Lovett, 37-year-old wife, it is different. For some time, a few months ago, she had been told in headlines—she had married Lovett in one of the brief intervals when he was not being quizzed by the police and just after her mother, Mrs. Mary Logan, had been accused of the murder of her husband. The child-wife made a dramatic and voluntary appearance yesterday at police headquarters. She said she had been staying with friends in Little Ferry, N. J., and that her husband had telephoned her yesterday he was staying in Brooklyn overnight with a friend.

She refused to name the friend or say how she received a hint that anything was wrong with her husband. Bursting into police headquarters, her first question was: "Is my husband, Bill Lovett here? Is he in trouble?"

INSISTS ON REPARATION PAYMENTS

France Determined Inquiry Shall Bear On Capacity to Pay.

RESERVE RIGHTS
Reply to British Note was Handed to Embassy Yesterday.

(By Canadian Press.)
Paris, Nov. 2.—France accepts with cordiality the contemplated collaboration of the U. S. in a conference of experts to study Germany's capacity to pay reparations. She demands, however, that it should be clearly understood that the proposed inquiry should bear solely on the "present" capacity of Germany and that it should respect all the rights held by the reparations commission under the treaty of Versailles.

This is the substance, it was learned today, of the reply which France has made to the British note of October 31, asking her to join Italy, Belgium and Great Britain in a collective invitation to the U. S. to be represented at the proposed conference. The reply was handed to the British embassy yesterday.

Prominent Men To Be at Match

London, Nov. 2.—Increasing confidence is felt in Government quarters here over the prospects for the early opening of a meeting of a special reparations committee on which an American expert will sit. In the exchange of views which is proceeding between London and Paris, respecting the terminology of the collective Allied invitation to the U. S. Premier Poincare, it is learned, shows a perceptible desire to soften some of the restrictions he has already set forth.
