TICKLING OF A BOY COSTS $330

Montreal, March 2—Tickling a boy in the ribs cost the Montreal Tramways Company, whose conductor was responsible for the joke, the sum of $30 and costs, in yesterday's superior court. Joseph Perent, twelve years old, was riding on a tram car when the conductor tickled him in the ribs. This caused him to lose his balance and he fell, sustaining injuries for which the boy's mother sued the company for $1,500 damages, receiving $30 and costs.

THE BUSINESS OF FARMING.

(Publication Branch Department of Agriculture, Ottawa.)

"Organization, co-operation and education are going hand in hand throughout the agricultural districts of the country," is the opinion of W. J. Rutherford, dean of the Saskatchewan College of Agriculture, who expressed the following views in the Agricultural Gazette for January. He says: "Farming is not the independent self-contained occupation that it was a generation ago. Conditions have changed from the pioneer days, and production has not only to do with supplying the demands of the home but it must aim to create an export trade. Farming is a real business, successfully carried on by men and women who are not only skilful in the art and practice, but are versed in the science of agriculture. Farmers today are not content to know only how to grow good crops they want to know also how to market them to good advantage. They are interested in the economic problems of their own communities and to a great extent in the problems of their customers in the city. Agriculture is both industry and commerce, and affects both the rural and the city population. The agriculturist of today is not merely a practical farmer but is necessarily a social worker. Rural communities have problems which require college trained men to solve."
